Java Full Stack Developer with over 2+ years of hands-on experience in software application development. Possesses a robust foundation in Java development and is proficient in Java, J2EE, Spring, and JavaScript.

WORK EXPERIENCE

Java Developer

Feb 2023 - Present

TransGene IT Solutions Pvt Ltd

Bengaluru

- Proven experience in customization development, integration, and configuration within the health and biopharma domain.
- Strong development skills in Java, Spring Boot, JSON, CI/CD, Apache, and Kafka, along with a deep understanding of Angular, RESTful services, and scalable software architectures.
- Optimized code efficiency and performance by leveraging Java, J2EE, JavaScript, MySQL, and SQL Server.
- Experienced in implementing best practices for front-end development using JavaScript, HTML, CSS, Bootstrap, Maven, and OOP principles.
- Contributed to the development and implementation of back end functionalities for key projects, utilizing Java, Spring, Spring Boot, and Hibernate, while demonstrating proficiency in analyzing root causes, optimizing software development lifecycles, and ensuring robust documentation for both SOAP and RESTful APIs.
- Demonstrated expertise in relational databases by optimizing SQL queries, resulting in a 30% reduction in query execution time, and designed and implemented robust database structures, including tables, indexes, and views.
- Ability to conduct functional, end-to-end, non-functional, and performance testing, with experience in test case creation and requirements traceability matrix (RTM) maintenance.
- Modified existing software to correct errors, upgrade interfaces, and improve performance, while identifying and resolving technical issues through strategic debugging strategies to optimize application performance.
- Utilized Git and GitHub for version control, ensuring efficient management of code and collaboration.
- Played a key role in developing a microservices architecture to enhance system scalability and maintainability.
- Demonstrated exceptional flexibility and a positive attitude while managing multiple tasks, resulting in a 20% increase in team efficiency.

PROJECTS

GeneHMS: Hospital Management System

Jan 2024 - Present

- Developed backend functionalities using Java.
- Utilized Eclipse IDE for coding and debugging.
- Implemented database interactions with Microsoft SQL Server.
- Deployed and managed the application on Tomcat 7.0 Server.

GeneELN: Electronic Lab Notebook

Feb 2023 - Jan 2024

Replaced traditional notebooks with an electronic system for documenting experiments. Key features included secure user authentication, smart search, audit trails, and collaboration tools. Supported PDF generation for reporting. Developed using Java, deployed on Tomcat 7.0, with data managed in Microsoft SQL Server.

CERTIFICATIONS

Java FullStack Developer by Jspider, BTM Branch

Jan 2023

EDUCATION

Bachelor of Technology

Jul 2016 - Jul 2020

Dr. Ram Manohar Lohia Avadh University

GPA: 7

SKILLS

Technical Skills: Programming Languages: Basic Java, Java 8, JDBC, Servlets, JavaScript
Frameworks: Spring Framework, Spring MVC, Hibernate, Microservices, RESTful API
Web Technologies: HTML5, CSS3, Bootstrap, jQuery, Ajax
Databases: MySQL, SQL Server, PostgreSQL
Tools: Git, GitHub, JUnit, Eclipse IDE, IntelliJ, STS, Visual Studio, Postman
Other: Elastic Search

LANGUAGES

Hindi (Native proficiency) • English (Professional working proficiency)
