Diploma (Electronics and communication engineering)	2019
Vaagdevi engineering college	
8.6 CGPA	
SSC	2016
TS model school	
9.3 CGPA	

PROJECTS

Personal Finance Adviser

This is a finance advisor chatbot powered by a Language Model (LLM). It's primary role is to assist users in managing their finances and making informed financial decisions.It can provide information on a variety of financial topics, including savings, investments, loans, insurance, and retirement planning.

GRC Audit Assessment

I worked on anything AI driven solution for governance, Risk and Compliance (GRC) audit assessments, focusing on comparing company documents with ISO standards to ensure regulatory compliance and data integrity.The primary goal was to streamline the audit process by automating document analysis and identifying compliance gaps.
