PROJECTS

8D Music Studio

Developed a cutting-edge music and video editing app that enables users to seamlessly blend multiple audio tracks, including both pre-made sound packs and custom recordings. The app also facilitates video creation by synchronizing user-generated music with visuals, offering a full-featured platform for multimedia content creation.

SUMMARY

Google certified associate android developer, Dynamic and results-oriented mobile app developer with 8 years of experience in Kotlin and Java. Proficient in implementing MVVM architecture and Google's Architecture Components to design robust, testable, and maintainable apps. Proven track record of delivering high-quality solutions that meet client needs and exceed expectations

B.E. in Computer Engineering

[Grow More Faculty Of Engineering](#)

01/2011 - 01/2015 Himmatnagar

Diploma in Computer Engineering

[Swami Sachchidanand Polytechnic](#)

01/2008 - 01/2011 Visnagar

PROJECTS

Just Joking-Social Media Memes

A meme-sharing app that allows users to create and share photo and video memes, with a built-in admin approval system to ensure quality control. The platform also rewards users with 'Kin' Cryptocurrency for active engagement and participation.

Mepl Live

A live broadcasting platform, similar to Bigo Live, that allows users to host and join live streams. The app supports interactive group sessions as well as private broadcasts, offering a dynamic space for real-time engagement and communication.

Act It Out

An app that streamlines the audition process for films, TV serials, and advertisements, enabling users to easily submit audition videos online for casting opportunities.

Lotus Meditation & Sleep

A meditation-focused music player app that offers a curated selection of soothing tracks for relaxation and sleep, with the option to download songs for offline listening.
