

Manjunathagouda Somangoudar (Immediate joiner)

SOC Manager/Head

(91) 8149722145

Somangoudar9@gmail.com

Over 12 years of experience in the Information Technology industry, specializing in information security and cybersecurity, including IT/OT SOC management, SOC architecture, cloud security, threat management, incident management, risk management, vulnerability management, project management, compliance, etc.

Skills and competencies

Recent Projects/ Clients

Brookfield

Certifications:

- Certified Information Security Manager (CISM)
- Certified Hacking Forensic Investigator (CHFI)
- ICS/SCADA Cybersecurity
- Splunk User and Splunk power user

Skills:

- **Cybersecurity Expertise:** Specialized in IT/OT risk management, threat management, and vulnerability assessments.
- **SOC Architecture:** Designed and optimized scalable IT/OT SOC infrastructures to enhance security operations.
- **Incident Management:** Directed incident response teams using SIEM, IDS/IPS, and firewalls for rapid threat containment and recovery.
- **SOC Automation:** Implemented SOAR and automation to streamline workflows and improve response times.
- **Threat Management:** Expert in detecting and neutralizing advanced threats (APTs, malware, insider threats).
- **Cloud Security (AWS):** Enhanced AWS security using IAM, KMS, WAF, Guard Duty, Inspector, Macie, and Shield.
- **Operational Technology:** Secured OT/ICS systems (SCADA, DCS, PLC, HMI, RTU) and protocols (CIP, DNP3, Modbus, S7 Comm, BACnet) following the Purdue Model for layered defense.
- **Compliance:** Ensured adherence to IT and OT standards, including IEC 62443, ISO 27001, PCI DSS, HIPAA, and GDPR.
- **Cybersecurity Frameworks:** Expert in implementing IT and OT cybersecurity frameworks and standards, including NIST, CIS, MITRE ATT&CK, and OWASP Top 10, leveraging best practices to strengthen security posture.
- **Resource Management:** Effectively managed SOC personnel and technology resources to optimize performance.
- **Risk Management:** Conducted risk assessments and implemented strategies for business continuity and regulatory compliance.
- **Security Technologies:** Proficient in Splunk ES SIEM, Sectrio, Nozomi Networks, and EDR/XDR for real-time threat detection.
- **Leadership & Communication:** Strong leader and communicator, mentoring teams and fostering collaboration.

Technology Exposure:

- SIEM: Splunk, ArcSight, IBM QRadar, Wazuh
- OT security: Sectrio, Nozomi, Claroty
- Cloud security: AWS
- SOAR: Cortex XSOAR
- EDR and XDR: Rapid7, Microsoft 365 Defender, Cortex XDR, Sophos
- Network Security: Firewall (Palo Alto), AWS WAF, Wireshark
- Email Security: Proofpoint
- Vulnerability management: Qualys VMDR

Role and Responsibilities: SOC Manager/Head

- My primary responsibility is to ensure that the IT/OT cybersecurity **strategy aligns** with the **organizational goals** and **objectives**.
- Led a team of **3 global SOCS (India, UAE, and Mexico)** with **37 analysts** to monitor, analyze, and respond to security incidents and anomalies in real time.
- As a **SOC manager/ head**, I **designed** and optimized **scalable below-SOC infrastructures**, enhancing **threat detection**, **incident response** and automation efficiency.

Experience	Projects/ Clients
SIEM and IT SOC Monitoring	Laerdal (AWS Cloud Security), Brookfield, and Subex.
NDR and OT SOC Monitoring	Abu Dhabi Airport, Coca-Cola, SBI, and Godrej.
Risk Assessment and Gap Analysis	Abu Dhabi Airport, Coca-Cola, PIL, and Ashok Leyland.
Designed and provided IT/OT awareness training.	Abu Dhabi Airport, Coca-Cola, PIL, Ashok Leyland, Laerdal, Brookfield and Subex

- Collaborated closely with business functions to support **POC** initiatives and addressed client queries.
- **Developed and implemented** the overall IT/OT **cybersecurity strategy**, ensuring compliance with industry standards and best practices.
- **Collaborated with IT and OT teams** to establish and enforce security policies, procedures, and guidelines specific to the OT environment.
- Conducted regular **risk and vulnerability assessments** to identify **potential weaknesses** in IT/OT systems and processes.
- Coordinated incident response efforts, including **containment**, **eradication**, and **recovery**, and **led post-incident reviews to refine incident response procedures**.
- Regularly communicate with executive leadership and stakeholders to provide updates on the state of IT/OT security, emerging threats, and recommended actions.
- **Managed vendor relationships and evaluated new technologies** to ensure the IT/OT SOC remained at the forefront of cybersecurity innovation.
- Worked on team **KPIs** and **SLAs**, monthly and quarterly reporting, and report walk-throughs with internal and external clients during meetings.

Qualification: Master's degree from Karnataka University.

Work Experience Details:

-  Sep 2022 – Dec 2024 • Subex • SOC Manager/ Head
-  May 2020 – Sep 2022 • NTT • SOC Manager
-  Dec 2018 – May 2020 • Laerdal • SOC Lead
-  Oct 2016 – Dec 2018 • Vodafone • Security Specialist
-  Sep 2015 – Sep 2016 • Wipro • Sr. Analyst
-  Jul 2012 – Aug 2015 • Infosys • Sr. Analyst
