

DevOps engineer with four plus years of experience in designing, implementing, and managing complex infrastructures. Proficient in multiple DevOps tools and techniques and knowledgeable in infrastructure automation and configuration management.

Work Experience

September 2023 -
Present
Trivandrum, Kerala

DevOps Engineer **PRISM HR (transferred from VensureHCM)**

- * Design, implement, and maintain Azure Infrastructure and CI/CD pipelines using Azure DevOps
- * Collaborate with development teams to ensure smooth and efficient deployment of code changes
- * Monitor and troubleshoot system performance and availability issues
- * Implement and maintain security best practices and compliance requirements
- * Automate repetitive tasks and processes
- * Develop a central knowledge bank of technical documentation
- * Demonstrate knowledge of SQL and NoSQL databases for effective data management
- * Perform infrastructure monitoring to proactively identify and address potential issues
- * React promptly to incidents, employing preventive measures to mitigate future occurrences
- * Possess foundational knowledge of networking concepts and infrastructure security practices
- * Adhere to principles of early incident reaction to minimize service disruptions
- * Exhibit a basic understanding of infrastructure-related networking concepts
- * Maintain awareness of infrastructure security practices to prevent unauthorized access

November 2022 - August
2023
Trivandrum, Kerala

DevOps Engineer **Vensure HCM**

- * Design and implement continuous delivery pipelines that serve the purpose of provisioning and operating client test as well as production environments.
- * Provide systems support including responding to monitoring alerts.
- * Implement and stay abreast of Cloud and DevOps industry best practices and tooling.
- * Able to integrate source code from different SCM repositories like Git, TFS, SVN, BitBucket.
- * create and configure Azure DevOps build definition for automated builds, unit testing and code analysis.
- * Create and configure Azure DevOps release definition and perform automated deployments.
- * Automate Azure DevOps CI & CD pipeline using ARM templates, YAML and PowerShell.

- * Able to perform containerized deployments from Azure DevOps to Kubernetes, OpenShift, AKS, EKS.
- * Able to perform customizations using Azure DevOps dashboards for reporting requirements.
- * Achieved a 45% reduction in azure resources billing through utilisation verification and the implementation of various cost reduction strategies.

November 2021 –
November 2022
Calicut, Kerala

DevOps Engineer **Gritstone Technologies**

- * Responsible for architecting, designing, implementing and supporting cloud-based infrastructure and its solutions in Azure Experience in working with Azure Cloud , provisioning and managing the virtual machines, Kubernetes services, storage accounts, App services, Key vault, SQL databases, Container registries and Application gateway and more.
- * Designed and Implemented CICD pipelines to automate the building of code from repositories and deploy it to Kubernetes service using Azure pipelines, resulting in the reduction of manual work, escalation of work efficiency and faster deployment and delivery.
- * Experience in building and maintaining Kubernetes clusters System administration on Windows and Linux environments and automation of various processes.

July 2019 – October 2021
Kochi, Kerala

Software Engineer **Orion Innovation**

- * Research and identify solutions to software issues.
- * Diagnose and troubleshoot technical issues.
- * Ask customers targeted questions to quickly understand the root of the problem.
- * Talk clients through a series of actions, either via phone, email or chat, until they've solved a technical issue.
- * Properly escalate unresolved issues to appropriate internal teams (e.g. software developers).
- * Provide prompt and accurate feedback to customers.
- * Refer to internal database or external resources to provide accurate tech solutions.
- * Ensure all issues are properly logged.
- * Prioritise and manage several open issues at one time.
- * Prepare accurate and timely reports.
- * Document technical knowledge in the form of notes and manuals.

Education

2016 – 2019

St. Joseph's College of Engineering and Technology, Palai

Master of Computer Application (CGPA : 7.2)

2013 – 2016

Mar Augusthinose College, Ramapuram

Bsc.Electronics (CGPA : 7.1)

Skills

- Docker
- Azure
- Azure DevOps
- Kubernetes
- Azure CI/CD Pipeline
- MsSQL / MySQL
- Git
- Azure Monitor
- NGINX
- cloud monitoring
- ELK(ElasticSearch)
- AZ - 900

Languages

- English — Fluent
- Malayalam — Native

Profile Summary
