SUMMARY

A dedicated and detail-oriented Security Operations Center (SOC) Analyst with 3.9 years of experience in cybersecurity. Proven expertise in monitoring, detecting, and responding to security incidents, performing threat analysis, responding to alerts, and collaborating with the incident response team to enhance overall security posture and ensure the integrity and confidentiality within in organization. Hands-on experience with security tools and methodologies like Qradar, Azure sentinel, EDR, MCAS, MDI, and KQL for monitoring real-time logs to safeguard organizational assets against cyber threats.

EXPERIENCE

Consultant, Nov 2020 till Date

WIPRO – BANGALORE

Working as a Consultant.

- ❖ Monitoring and analyzing real-time security events and dashboards to determine and respond to intrusion and malicious events 24/7 using Azure Sentinel, EDR, and XDR.
- ❖ Analyzing traffic, reviewing logs, and identifying potential security threats with basic usage of KQL for the triggered entities in Sentinel and EDR platforms.
- ❖ Perform initial triage, investigation, and analysis of security incidents based on their signature, behavior and coordinate with relevant teams to mitigate and resolve threats.
- ❖ Checking the log source analysis and device health using Sentinel to ensure confidentiality, integrity, and availability of all critical security assets across the environment.
- ❖ Creation of SOPs & reviewing at regular intervals (Upgradation).
- ❖ Analyzing Phishing, Spam emails, domains, and IPs using various Open-Source tools and recommends further analysis and finetuning.
- ❖ Good exposure of using sandboxing tools for encoding and decoding techniques for investigation.
- ❖ Continuous tracking the activity from any suspicious user or host under watch-list and threat intelligence.
- ❖ Making use of the latest IOC feeds from Microsoft Threat Intelligence to blocking the IOCs at proxy level.
- ❖ Research new and evolving threats and vulnerabilities using security blogs and threat intelligence feeds.
- ❖ Maintain current knowledge of tools and best practices in ATPs: Tactics, Techniques, Procedures (TTPs) of attackers.
- ❖ Preparing the daily reports and handling the daily team calls and Communication with the team on daily basis.
- ❖ Knowledge of playbook development in Sentinel and creation using logic app with automation based on playbooks on SOAR.
- ❖ Having Analytical thinking, Strong problem-solving skills, and reporting skills. Able to prioritize and execute tasks in a collaborative environment.

Worked as an L1 analyst

- ❖ Worked on tools like IBM Qradar, Digital Guardian, Proof point and DLP.
- ❖ Track the activity from any suspicious user or host under a watch list and threat intelligence.
- ❖ Log analysis for major incidents for any suspicious behavior or anomalies from various devices. Assisting customer in troubleshooting their network by fetching logs, and events as per their requirements.
- ❖ Preparing reports as per client requirements. Investigating and creating use cases for threats and forwarding them to the onsite SOC team for further investigation and action.
- ❖ Has been part of the integration, of data from Qradar to Azure Sentinel and started working on a new platform.
- ❖ Investigate malicious file hashes, phishing emails, domains, and IPs using Open-Source tools and recommend for further analysis and finetuning. Rescan mitigated systems for further infections.
- ❖ Analyzed every alert and provided proper documentation forwarding the ticket on Service now to the Incident Responding team.
- ❖ Created SOPs for the Use cases for the proper visibility of analysis of the incident.

SKILLS/TOOLS

- ❖ SOC(Security Operation Centre): Sentinel, IBM Qradar, XDR, EOP, MDI, MDCA and MDC
- ❖ SIEM And SOAR: Azure Sentinel, IBM Qradar
- ❖ Microsoft 365 defender Suite: XDR, EOP, MDI, MDCA and MDC
- ❖ Anti-Virus: Windows Defender, McAfee
- ❖ Email & Phishing Analysis: Abnormal Security, EOP, Proofpoint
- ❖ Language: Basic of KQL
- ❖ Proxy: Iboss, Zscaler
- ❖ DLP: Digital Guardian, Solarwinds
- ❖ IP Reputation & Analysis: IP Void, Abuseip db, Virus total, MX Toolbox, IPQS
- ❖ URL Reputation & Analysis : URL Void, URL Scanner
- ❖ Sandbox & Analysis: AnyRun, Browserling, Jeosandbox
- ❖ Ticketing tool: Service now

EDUCATION

Sathyabama Institute of Science and Technology - Chennai, TN (BE E.C.E 2020)

Narayana Junior College – Tirupati (Intermediate, 2016)

Sree Chaitanya School – Palamaner (SSC 2014)

CERTIFICATIONS

- ❖ Microsoft Certified: Security Operations Analyst Associate (SC-200)
- ❖ Microsoft Certified: Azure Security Engineer Associate (AZ-500)
- ❖ Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
- ❖ Microsoft Certified: Azure Fundamentals (AZ-900)
- ❖ Endpoint detection and response certification from Qualys
- ❖ Cisco certificate in Junior Cybersecurity Analyst Career Path (CCNA)
