Work History

2022-04

Present

Team Leader,Siemens Gamesa

[Siemens Gamesa Renewable energy pvt ltd](#)

- Develop Tools to Automate/optimize process for offshore/onshore Load engineers [C++,Python,Matlab,Cmake]
- Ramp up software teams that work on load pre and post-processing tools across diverse geographies
- Involved and implemented architectural framework for few projects
- Worked in cross languages to process data for computations
- Developed qt-based application clustered with OpenGL

2019-12 -

2022-03

Team Leader ,XIPANextGen Products

[Xitadel CAE Technologies Private Limited, Bengaluru, Karnataka](#)

- Design and Developed Unique CAD [Application](#) to detect Features using C++, C# and Python [Deep Learning] with Open Cascade Kernel
- Design and Developed [WPF Interface](#) for internal product enhanced 50% user friendliness
- Built strong relationships with customers through positive attitude and attentive response.
- Designed Scrum Process for organization with previous experience yielded good results
- Led team of 5 members while providing exceptional customer service

2017-07
2019-11

Senior Software Analyst

[Hexagon Capability Private limited, Hyderabad, Telangana](#)

- Worked in Development of [Smart3D](#) product in Marine engineering sector using C++, C# and SQL
- Involved in high level meetings with Platform team to understand technology projects
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Being in Scrum master role, handling multiple projects for team was good experience
- Provided training to assistant engineers during their onboarding process

2014-05 -
2017-07

Software Developer

[DEP India Private Limited, Chennai, Tamilnadu](#)

- Assisted in design and development of CAD Tools projects in C++ with Visual studio IDE
- Learned software engineering process improvements and best practices.
- Responsible for integrating and developing CAD functionalities using CAD kernels for [CAD-Morpher](#) and [Mesh-Works](#) products using [Parasolid Kernel](#)
- Produced clean, validation-ready code for project needs.
- Involved in all phases of Product life cycle - Requirement gathering, Development, Testing.
- Collaborated with other developers to identify and alleviate number of bugs and errors in software.

Education

2012-06 -
2014-05

MTech: CAD

SRM University - Chennai, TN
