Petuk Ji Pvt. Ltd.

Feb 2024 - Mar 2024

Android Intern

- Worked across teams and managed project along different branches at GitHub.
- **Technology Used** : Kotlin, Android SDK, Firebase Authentication, MVVM Archeticture, System Architecture, Couritines, Get-Pack Compose, REST API, Node, GitHub Libraries, Git & GitHub.

Brillect Tech Solutions

Android Intern

Oct, 2023 - Jan, 2024

- Independently executed initial practice projects, demonstrating individual proficiency.
- **Technology Used** : Kotlin, Android SDK, XML, Firebase Realtime Database, Firebase Storage, Firebase Authentication, MVVM Archeticture, Razor Pay Payment Gateway, Get-Pack Compose, GitHub Libraries, Figma, Git & GitHub.

PROJECTS

Job Portal Application

- Developed a job portal application catering to two user types – recruiters and applicants. Recruiters post job openings, applicants apply, and recruiters can manage applied candidates, view profiles, and initiate interview processes.
- **Technology Used** : Kotlin, Jetpack Compose, Firebase Realtime Database, Firebase Authentication, Firebase Storage, MVVM Pattern.
- **Link** : <https://github.com/ChiragNikam/JobPortal>

Park Pro - Parking Management App

- Designed a parking management application with features such as Park Now, Reserve Parking, and Parking History. Users can park immediately, reserve parking slots, and view their parking history.
- **Technology Used** : Kotlin, XML Views, Firebase Realtime Database, Firebase Authentication, RazorPay Payment Gateway, MVVM Architecture.
