CAREER SUMMARY

Dedicated software developer with hands-on experience in diverse programming languages and a strong passion for software development. Actively seeking an entry-level developer role where I can leverage my skills to deliver innovative solutions and further refine my technical expertise within a collaborative and dynamic team environment.

EDUCATION

CMR Technical Campus

Bachelor of Technology in Computer Science and Engineering

October 2020 - July 2024

- CGPA 7.41/10.0

Alphore's Junior College

IPE in MPC

June 2018 - March 2020

- Percentage 88.7/100

PROJECTS

CMR TECHNICAL CAMPUS

Performance Analysis of Student Feedback Using Machine Learning

December 2023 - May 2024

- Developed and implemented a machine learning-based analysis system for student feedback, utilizing supervised learning techniques to identify sentiment and emotions, resulting in actionable insights into areas of strength and weakness.
- Applied advanced computational methods, including sentiment analysis and natural language processing, to extract valuable insights from feedback data, contributing to enhanced instructional quality and a measurable increase in student performance.

Sales Forecasting for Big Mart Using Machine Learning & Deep Learning

September 2023 - November 2023

- Designed a machine learning-based system to forecast sales by analyzing historical data, product details, store locations, and promotions.
- Utilized deep learning techniques to enhance prediction accuracy, optimizing inventory, marketing, and pricing strategies, resulting in a significant increase in sales and profitability.

Integrated Database Management for Dining and Shopping

August 2024 - September 2024

- Developed a database system integrating restaurant and online shopping functionalities, including tables for customers, orders, menu items, and products to streamline operations.
- Implemented advanced SQL queries and PL/SQL, utilizing stored procedures for order processing and triggers to maintain data integrity, ensuring efficient and consistent data management, to improve the database performance.

TECHNICAL SKILLS

- **Front End** : HTML, CSS,
- **Programming-Languages** : C, Python, C#, ASP.NET(Web API, MVC)
- **Databases** : Microsoft SQL Server
- **Soft Skills** : Creativity, Problem-Solving, Leadership, Conflict Resolution

INTERNSHIPS

- Completed Salesforce Developer Virtual Internship and awarded a certificate .
- Intern at Avinya Front,Gained Hands-on experience with Database,RESTful Web APIs and Functional Testing.

CERTIFICATES

- Certificate for Completion of Robotic Process Automation under Paypal with ICT Academy.
- Certificate for Completion of C Training and Exam from IIT Bombay.
- Certificate for Completion of the Data Analytics at Coursera.
- Certificate for Completion of Python at Infosys Springboard.

PARTICIPATION

- Participated in Tech Hunt Hackathon 2022,Organized by CMRTC.
- Enhanced my knowledge of Artificial Intelligence and Cloud Computing by participating in relevant workshops (Robosapiens).

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
