PROFILE

Strategic and results-driven Business Analyst with 5+ years of experience in business operations, healthcare, account management, client relations, and new business development. Recognized for innovative thinking and strong analytical skills, adept at aligning advanced analytics with business strategies to drive performance and meet objectives while managing risks effectively.

WORK EXPERIENCE

Senior Data Analyst

Analytics Aura Private Limited, Madurai.

Aug 2023 - Present

Project 1: Sales Application Analysis | TI Cycles

Technologies Used : Power BI, API-Live, SQL, Microsoft Excel

- Integrated API with token-based authentication for secure data retrieval, using custom headers and dynamic parameters.
- Managed data extraction and transformation in Power Query Editor for comprehensive analysis.
- Developed a Sales Analysis Dashboard covering Primary & Secondary Sales, Inventory, and In-Transit metrics.
- Analyzed sales trends (FTD, MTD, YTD) and inventory metrics, generating detailed daily order-level reports.
- Designed a Lead Dashboard with conversion rates, MTD, and FTD performance metrics.
- Optimized data-driven decision-making through Power BI Q&A feature and row-level security.
- Wrote complex SQL queries for data extraction, automated reports, and coordinated defect identification with testers.

Project 2: Testing | TI Cycles

Technologies Used : BRD, QA, BI Testing

- Authored Business Requirements Documents (BRDs) for Power BI dashboards, defining project objectives and requirements.
- Conducted manual testing and validated Power BI features, including slicers, drilldowns, and calculations.
- Created and managed test cases, executed manual tests, and tracked pass/fail/blocked statuses in Excel.
- Utilized SQL queries to verify and validate database queries, ensuring data consistency.
- Developed test plans and strategies for unit and functional testing of data processing and reporting.

Project 3: Sales Statistical Analysis | Autocrat Engineers

Technologies Used : Power BI, Python, SAP B1, R Studio (ML Algorithm)

- Implemented advanced DAX queries in Power BI to improve performance and provide actionable insights.
- Enhanced ETL processes using SQL and Python to import reliable data into Power BI.
- Led machine learning projects, including regression, clustering, and ensemble algorithms, to optimize forecasting.
- Developed AI-based predictive models to improve market prediction accuracy.
- Designed dynamic Power BI visuals and reports with KPIs and efficient story flow.
- Conducted Power BI workshops to improve team capabilities, resulting in a 25% increase in performance.

SHERLIN GIFTY M

SENIOR DATA ANALYST

PROFESSIONAL SKILL SET

- **Data Analytics:** Expertise in data manipulation, analysis, and visualization using tools such as Power BI (DAX), Apache Superset.
- **Healthcare Industry Knowledge:** In-depth understanding of EMR, HIPAA compliance, EPIC Clarity, and ICD-10 codes.
- **Software Implementation & Configuration:** Skilled in gathering requirements, mapping client data, and customizing visuals with Power BI DAX queries.
- **Collaboration & Process Improvement:** Worked closely with Sales and Supply Chain Management teams to streamline processes, ensure data validation, and conduct unit testing, leading to improved efficiency and accuracy.
