

Shubhangi Prakash Solanke

- Software Engineer

Contact: 8788983161

E-Mail: shubhsolanke1995@gmail.com

Professional software engineer with a demonstrated history of working in the information technology and services industry. Skilled in Python (Programming Language), Django, AWS Lambda, MySQL, SQLAlchemy and software testing with strong engineering professional with Bachelor of Engineering.

TECHNICAL EXPERTISE

- Languages/Technologies - Python 3.X, MySQL, JSON, AWS lambda
- Frameworks - Django, DRF, SQLAlchemy, Django ORM
- Database - MySQL
- Development Tools - PyCharm, Visual Studio Code
- Web Technologies - HTML, CSS, JS
- Other - Postman, GitHub, manual testing, test data

PROFESSIONAL WORK EXPERIENCE

1. Software Engineer

October 2020-2021

AveCircle Technologies, Pune.

2. Software Engineer

January 2023-Till date

Anand Rathi Wealth Pvt Ltd,
Mumbai.

Professional Summary:

- 1 year of experience in AveCircle Technologies and at Present working in Anand Rathi Wealth Pvt, Ltd.
- Experience in working with technologies as Python, Django, Django Rest Framework SQLAlchemy
- Having experience of working with database technologies like MySQL
- Knowledge of design pattern Singleton, MVT
- Knowledge of software Configuration Management tools as GitHub

PROJECTS UNDERTAKEN

Project – 1:

Project Name : Workstation Calendar Management

Role : Software Developer

Technologies : Python 3, AWS Lambda , MySQL

JSON Database : MySQL

Description:

Getting 'Miss Call Alert' whenever trying to schedule meeting in a reserved slot by some other manager and informing Product Team Head that some other person wants to schedule meet at the same time. In such cases Product Team Head will use Calendar module from Workstation portal to create meet for that other manager at some other time.

Responsibilities

- Responsible for coding and developing using Django, MySQL.
- Understanding use cases and translates them into functional requirement.
- Develop software related to asset management.
- Integration of user-facing elements developed by front-end developers with server-side logic.
- Development, bug fixing, issues, requirement understanding.

Project -2:

PROJECT TITLE : Children Schooling Loan

ROLE : Software Developer

TECHNOLOGIES : Python 3, Django, DRF, MySQL, React JS, JSON.

DATABASE : MySQL

Description :

The education of their children is a critical goal for almost all Indian parents. However, while providing the best education is priority, not many parents may actually be able to meet this goal. This is because the cost of education has been spiraling over the years, with education inflation pegged at a whopping 10%. Starting to save early is critical. If parents start to save for their child's education immediately after the birth of the child, they would have 18 years to save for graduation and 21 for higher studies.

Responsibilities:

- Conducted rigorous testing on the Children Schooling Loan project, ensuring seamless functionality and user experience
- Proficiently utilized MySQL database knowledge to create and execute complex database queries, ensuring data integrity and reliability.
- Developed and executed comprehensive test cases, meticulously identifying and documenting bugs and issues to enhance the overall quality of the project.
- Played a key role in ensuring the security and integrity of the application's data by implementing thorough testing protocols

Project – 3:**Project Name : Veena Travels and Tour****Role : Software Developer****Technologies : Python 3, Django, DRF, MySQL, React JS,****JSON Database : MySQL****Description:**

This application allows users to book bus tickets from anywhere and anytime 24 x7. It is web based application that works within a centralized network. OBTRS is built for managing and computerizing the traditional database, ticket booking and tracking bus and travel route. It maintains all customer details, bus details, reservation details. The software helps in improving the customer relationship and management in Imo Transport Company (ITC) operations.

Responsibilities:

- Develop software related to asset management
- Integration of user-facing elements developed by front-end developers with server-side logic.
- Create logics for data processing and computations.
- Development, bug fixing, issues, requirement understanding.
- Make impactful contributions to internal discussions on updating the software.

EDUCATION

- BE BNCOE, Pusad, Dist. Yavatmal/2013-2017/ CGPA 8.67
- HSC/Amravati Division/Maharashtra State Board/2012-2013/ 64.33%
- SSC/Amravati Division/ Maharashtra State Board /2010-2011/83.20%

PERSONAL DETAILS

- Permanent Address : Flat No.103, Savitri CHS, Sector-9, Airoli, Navi Mumbai-400708
- Hobbies : Painting, Dancing
- Marital Status : Married
- DOB : 12/02/1995
- Language known : English, Hindi and Marathi
