

Kiran Beeralli

Security Analyst

Email: beerallikiran97@gmail.com

Mobile: 8897389602

Professional Summary

A results-driven SOC Analyst with 2+ years of experience in cybersecurity operations. Proven expertise in incident detection, analysis, and response, with a strong foundation in security tools and technologies. Proficient in SIEM (Azure Sentinel), EDR solutions (CrowdStrike, Tanium, Carbon Black, Microsoft Defender), vulnerability management (Nexpose), identity and access management (Okta), email security (Proofpoint), and ticketing systems (ServiceNow). Committed to proactive threat mitigation, continuous improvement of security posture, and equipped with relevant certification. Excellent written and verbal communications.

Work History

Achieve Cyber Security (Metmox) | March 2022 - Present:

- Hands-on experience in 24*7 SoC Operations, handling security alerts, incidents, triage, and investigation.
- Utilized security tools, including CrowdStrike, Microsoft Defender, Tanium, and Carbon Black, for threat detection and analysis.
- Used Nexpose to validate agent status on endpoints, perform ad hoc scans, weekly and monthly vulnerability scans, and provided scan reports to the patch management team.
- Ability to use Okta to add exclusion policies for users, unlock accounts, resolve global connectivity issues, sync accounts, and handle multiple Active Directory (AD) domains for MFA on VPN.
- Stayed updated on emerging security threats, vulnerabilities, and best practices. Conducted research and shared knowledge within the organization through articles, presentations, or training sessions.
- Assessed reported emails to determine their malicious nature, thus preventing potential security breaches.
- Actively participated in threat hunting initiatives, leveraging knowledge and skills to identify anomalous activities and potential security threats, including threat intelligence analysis.
- Created and maintained comprehensive documentation of security procedures, incident reports, and security policies to ensure compliance and improve future incident response.

Elite Path | Oct 2021 - Feb 2022:

- Built a network-attached storage (NAS) server that connects to and is accessed through a network.
- Generated reports by performing network penetration testing.
- Tutored students on networking concepts.

Dell Technologies | May 2021 - Sep 2021:

- Worked with different user-facing issues, including both software and hardware, and provided troubleshooting accordingly.

Skills

- SIEM (Azure Sentinel)
- EDR (CrowdStrike, Microsoft Defender, Tanium, Carbon Black)
- IAM (Okta)
- Email Analysis
- Vulnerability Management (Nexpose)
- Threat Intelligence
- ServiceNow
- Proofpoint

Education

- **B.Tech in Computer Science and Engineering**
TKR College of Engineering | Completed in 2020
- **Intermediate**
Sri Gayatri Jr College
- **SSC**
Vaninikethan High School

Certifications

- Certified Ethical Hacker - verify
- Microsoft Azure Fundamentals (AZ900) - verify
- Digital Forensics Essentials - verify
- Threat Intelligence Analyst - verify
