OBJECTIVE

Results-driven Software Engineer with 2+ years of experience in Developing and Deploying Software Applications that significantly increase revenue and enhance user engagement. Skilled in Python, Java, and modern Web Technologies, with a strong focus on delivering innovative, high-impact solutions in dynamic team environments.

SKILLS

Programming Languages:	Python, Java, JavaScript, AIML, DSA
Frameworks:	Django, NumPy, Pandas, Restful API, Flask, React.js, Matplotlib
Databases:	SQL, MySQL, MongoDB, PostgreSQL
Other Skills:	Testing Methodologies, SDLC, OOP, Git, GitHub, Bootstrap, CI/CD, AWS, Unit Testing, Machine Learning, Agile Methodologies, ORM Tools
Soft Skills:	Communication, Problem-solving, Adaptability, Teamwork, Time Management

EDUCATION

Bachelor of Computer Application, Jain University Belgaum	2018 – 2021
---	-------------

PROFESSIONAL EXPERIENCE

Deepam Taxi, Bangalore KA	May 2024 - Present
---------------------------	--------------------

Software Engineer

- **Team Leadership & Project Management:** Led and managed a team of developers to meet project milestones, enhancing team collaboration and project delivery.
- **API Validator & Development:** Developed and optimized robust RESTful APIs using Flask, Fast API, and Django, increasing data retrieval efficiency by 35%.
- **Intelligent Query Handler:** Designed a Django-based CRUD application integrated with OpenAI GPT3.5 Turbo API and utilized Git for effective code management.
- **Data Analysis & Optimization:** Performed advanced Data Analysis with NumPy and Pandas, generating actionable insights, and optimized Database Schemas for efficient Data Retrieval and Storage.

Vtech Integrated Solution, Bangalore KA	Jul 2023 - Apr 2024
---	---------------------

Software Engineer and Sr. Tech Trainee

- **Advanced Web Application Development:** Developed and deployed web applications using Python, Java, and related technologies.
- **Effective Technical Training:** Conducted tech training sessions, translating complex concepts into accessible content for diverse audiences.
- **Responsive UI Design & Drupal Customization:** Developed responsive UI components with Bootstrap and created custom Drupal themes to enhance user experience across devices.
- **Intuitive Django Interfaces:** Utilized Django views and templates for intuitive and user-friendly web interfaces.

- **Seamless Full-Stack Integration:** Led the integration of frontend and backend components through meticulous coding practices.
- **Reliable Feature Development:** Developed, tested and troubleshooted Java and Python features to ensure application reliability.
- **Operational Efficiency Through Automation:** Automated routine tasks and processes with Python scripts, improving operational efficiency.
- **Tools:** Proficient with Integrated Development Environments (Eclipse, Visual Studio Code, PyCharm, etc.).

PROJECTS

Deepam Taxi

Role: **Python Lead Developer**

Technologies: Python, Django, Flask, REST API, Bootstrap, MongoDB

Description: Deepam Taxi is a premier taxi and cab service provider in Bangalore, offering cost-effective fares for local and outstation travel, including airport pickups and drops. The service facilitates seamless bookings through a dynamic Android app and the official website.

Roles and Contributions:

- **Application Development:** Designed a scalable application from scratch using Python and Django, meeting client requirements.
- **API & Database Integration:** Built robust CRUD APIs and integrated MongoDB for efficient data handling and queries.
- **Dashboard Creation:** Developed a real-time dashboard for 6 user roles, improving operational efficiency and user experience.
- **RESTful Services & Testing:** Implemented modular components, consumed JSON APIs, and conducted testing with Postman for reliability.
- **Version Control:** Leveraged Git for code integrity and efficient team collaboration.

Hungry Hub

Technologies: Python, Django Framework, SQL, Bootstrap

Description: Revolutionized the food industry by connecting customers to restaurant partners through the HUN- GRY HUB platform. Facilitated the sale of surplus food products at a minimum price with take-away facilities, contributing to global efforts in reducing food waste.

Roles and Contributions:

- **Platform Development:** Built a scalable platform using Python, Django, and SQL, ensuring seamless user and partner interactions.
- **UI Design & Optimization:** Developed responsive UI components with Bootstrap, enhancing multi-device user experience.
- **Business Logic & API Integration:** Implemented surplus food workflows and integrated APIs for real-time updates and smooth operations.
- **Quality Assurance:** Ensured platform reliability through rigorous testing and issue resolution.

CERTIFICATIONS

- Ongoing pursuit of excellence in Machine Learning, Data Science, and Generative AI with Python on Udemy.
- Data Science Expert with Python Django Tutorial.
- Certified TVET Trainers/Master Trainer by NASSCOM India.
- Certified in Core JAVA. Recognized for proficiency in SQL and CSS Programming by LinkedIn Learning.
