Profile

Results-driven professional with 2.5 years of experience in manual software testing and recent hands-on internship in Data Science and Machine Learning. Currently seeking roles in **data science**, **data analysis**, or **manual testing** where I can apply my expertise in **Python**, **SQL**, **Excel**, and **data visualization** tools like **Power BI** and **Tableau**. Eager to contribute to a dynamic team by leveraging my skills in **predictive modelling**, **data-driven decision-making**, and **quality assurance** to deliver actionable insights and high-quality results.

Professional Experience

Data Science Intern

IVY Pro School (Certification Program and Internship in Data Science and Machine Learning)

09/2023 – present
Bangalore

- Acquired hands-on experience in data analysis, visualization, and statistical methods using Python, Excel, Tableau, Powerbi and SQL.
- Developed expertise in data cleaning, manipulation, and exploration to derive actionable insights.
- Completed projects involving data-driven decision-making and predictive modeling, such as Loan Approval Prediction and Computer Price Prediction.
- Gained experience with machine learning algorithms and utilized tools like Power BI to create dashboards for business insights.

Junior Engineer

CMS Info Systems Pvt Ltd, Bangalore

09/2017 – 04/2020
Bangalore

- Conducted manual testing for web-based applications, ensuring adherence to functional requirements and high-quality deliverables.
- Performed functional, regression, usability, and system integration testing to identify and document defects.
- Collaborated with developers to troubleshoot and resolve issues, enhancing overall system performance.
- Executed database testing to verify data integrity and consistency across various systems.

Education

Certification and Internship Program in Data Science and Machine Learning.

IVY Pro School

09/2023 – present
Bangalore

Bachelor of Engineering (BE) in Computer Science and Engineering

VTU University, Karnataka

Karnataka

Skills

Programming & Scripting

Python ,SQL , VBA

Data Visualization:

Tableau, Power BI, Matplotlib, Seaborn

Databases:

MySQL, SQL Server, Database Testing, Database Management, ETL ProcessesDatabases:

Software Testing:

Web-Based Testing, Functional Testing, Regression Testing, Usability Testing, System Integration Testing

Statistical & Analytical Skills:

- Predictive Analytics, Data Modeling, Exploratory Data Analysis (EDA)

Data Analysis & Manipulation:

Excel, Pandas, NumPy, Data Cleaning, Data Wrangling, Data Transformation

Machine Learning:

Supervised and Unsupervised Learning, Scikit-learn, XGBoost, Decision Trees, Random Forests, SVM

Cloud & Big Data:

Basic knowledge of AWS (S3, EC2)

Business Intelligence & Reporting

- Dashboards and Reports Creation using Power BI, Tableau
- Generating actionable insights from complex datasets and presenting them to stakeholders

Projects

Computer Price Prediction

02/2024 – present

Data Science Project | IVY Pro School

- Predicted computer prices based on hardware specifications by analyzing a dataset from Kaggle.
- Performed data preprocessing (imputation, encoding) and exploratory data analysis (EDA), employing Linear Regression for initial modeling.
- Enhanced the model using XGBoost, achieving a 91% accuracy in price prediction.

Loan Approval Prediction

12/2023 – 03/2024

Data Science Project | IVY Pro School

- Applied machine learning classifiers, including Decision Tree, Random Forest, and SVM, to enhance prediction accuracy for real-world applications.

Blinkit Sales Analysis

04/2024 – present

Data Analysis Project | IVY Pro School

- Developed an interactive dashboard in Power BI to analyze sales performance, customer satisfaction, and inventory distribution.
- Used KPIs and advanced visualizations to extract key insights, identifying areas for business optimization and improved decision-making.

Courier Management System

09/2017 – 04/2020

Junior Engineer | CMS Info Systems

- Conducted requirement analysis, test case creation, and execution for functional, integration, and database testing.
- Managed defect life cycle and provided regular status updates to the project manager.

Declaration

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
