PROFESSIONAL SUMMARY

Versatile Software Developer with expertise in full-stack development, specializing in React.js and Node.js to deliver responsive, user-focused applications. Skilled in AWS deployment and API integration, with a track record of creating scalable, secure, and high-quality solutions. Known for a collaborative approach and dedication to staying at the forefront of industry trends.

SKILLS

Tech Stack: Python, MySQL, JavaScript, React.js, Node.js, MongoDB, HTML/CSS, AWS (EC2, S3, RDS).

Tools: Visual studio, Docker Desktop, Figma, Postman, Git, MS Office, Swagger UI.

Soft skills: Communication, Problem solving, Teamwork, Planning and Forecasting.

EXPERIENCE

Full-stack Software Engineer, Encryptus

June 2024 – Sept 2024

- Developed and implemented vendor APIs to enhance integration and functionality across applications.
- Maintained a clean codebase and implemented testing strategies to identify and resolve software issues effectively.
- Created and launched the company website, ensuring a seamless and visually appealing user experience.
- Collaborated with cross-functional teams to gather user feedback on application performance; facilitated improvements based on insights from over 200 users, resulting in a more intuitive interface and increased usability ratings.

Full-stack Developer Intern, Encryptus

Jan 2024 – May 2024

- Conducted API testing and migrated to Postman to streamline testing processes and enhance efficiency.
- Developed flowcharts and pseudo-code for API integration and payment processes, improving project execution.
- Designed an intuitive website layout using HTML, CSS, and JavaScript that enhanced user engagement, while ensuring a visually appealing design for optimal accessibility.

EDUCATION

Master of Computer Application

Kristu Jayanti College, Bengaluru

Nov 2022 – June 2024

CGPA 7.89/10

Bachelor of Computer Application

St.Joseph's College, Tiruchirappalli

July 2019 – Oct 2022

CGPA 8.25/10

PROJECTS

Developed Cumulative System Application for Medical College (Live)

Developed a cumulative system application for a medical college, integrating live data to manage and track student performance, attendance, and academic progress. The system automates reporting and provides real-time analytics for better decision-making and administration.

St. Ann's College of Nursing Official Website (Live)

Designed and launched the official website for St. Ann's College of Nursing, showcasing key information for students and staff. The site is now live and provides a modernized, responsive platform for college announcements and updates.

Anzens Website Development (Live)

Built the Anzens website, focusing on a user-friendly, live platform that meets client specifications and serves as a reliable online presence.
