

DIVYA VARIKUTI

DevOps and Application Support Engineer

Email - divyavarikuti1999@gmail.com Contact: 9381863839

Profile Summary

- A high energy and versatile with nearly 3.5 years of experience in DevOps and Application Support (SRE).
- Implemented infrastructure as code practices using Terraform, resulting in improved consistency and reduced provisioning time.
- Client Focused Professional; excels in providing complete support to the customers with a team of Application Support Specialists which includes complete product support, process optimization & so on.
- Collaborated with cross-functional teams to enhance application reliability, performance and Implemented CICD Pipeline through Jenkins.
- Enhanced operational efficiency by implementing and optimizing ITIL processes, utilizing ticketing tools like Jira Service, and ServiceNow, resulting in streamlined incident management and service delivery.
- Played a pivotal role in maintaining and enhancing the reliability and performance of digital banking applications by proficiently monitoring and supporting them, thereby ensuring uninterrupted services and improved customer experience.
- Natural Leader with capabilities in managing, leading & training teams for running successful process operations & experience of developing procedures, service standards for business excellence.
- Adept at monitoring and logging solutions (Prometheus, Grafana) to ensure high availability and system health.

Technical skills

- Cloud – AWS, GCP
- Version Control systems – Git, GitHub
- CI/CD Tools – Jenkins
- Automation Tools – Ansible, Terraform
- Containerization – Docker, Kubernetes
- Scripting Languages – Python, Shell scripting
- Languages- Go
- Monitoring Tools – Grafana, Prometheus, DynaTrace
- DB - SQL Server

Academic Details

B.Tech in ECE from Lakkireddy Balireddy College of Engineering, Andhra Pradesh in 2021

Core Competencies

- Cloud Services
- Infrastructure as Code
- Containerization and Orchestration.
- Continuous Integration and Continuous Delivery
- Log Analysis
- Configuration Management
- Troubleshooting
- Monitoring and Logging
- Root Cause Analysis
- Ticketing System
- Process Excellence
- Team Building

Certifications

- AWS Certified Professional (CLF-C02)
- Associate Cloud Engineer from Google
- Jenkins Tutorials Certification from Great Learning
- Python Scripting Certification from Wipro

Personal Interests

- Project Management
- Dancing

Languages

- English
- Telugu
- Hindi

Work experience

Wipro (2021- Till Date)

HDFC Account (Sep 2022 – Till Date)

- Was an integral part of the team that improved and monitored cloud infrastructure on AWS and Jenkins.
- Reduced monthly costs by \$30.00 by removing unnecessary volumes attached to ec2 instances.
- Effectively managed tasks, resolving technical issues, and actively contributing to project meetings to enhance project delivery.
- Automated security systems and cut risk of breaches by 60% .
- Worked on Passwordless Authentication in Ansible to connect from one ec2 instance to another.
- All services are Monitored on Dynatrace Tool. DB related things are monitored by using Prometheus and Grafana.
- Created Jira requests on Mobile Banking Service Bugs which connect to GitHub and automatically ticket gets created.
- In Terraform worked on Vault configuration for Active/Active setup to ensure security in the application.
- Developing and Maintaining CICD pipelines using Jenkins, which resulted in elimination of manual work and increased productivity.
- Handled local Kubernetes deployments, establishing a local cluster and deploying apps into containers.
- Ensured high availability and scalability for containerized applications by managing and maintaining Kubernetes clusters. Automatic scaling and rolling upgrades were put in place to handle growing workloads during peak time.

Shell Account (July 2021- Sep 2022)

- Worked on Jiffy Lube Screens Clickable Functionality. GROW payment is implemented with Chase integration.
- The capabilities include Ring out, refund and void with the card types such as VISA, MASTERCARD, DISCOVER and AMEX.
- Resolved ServiceNow tickets raised by business users, ensuring timely resolution.
- Attended client calls and help them with deployment phase.
- Worked on Verifone devices such as E285 and M400.
- Worked with Deployment team and helped the team with SQL Verification and Device Registration.
- Prepared project backout plan and helped the team with design document.

Personal Details:

Date of Birth: 08-Nov-1999

Address: Mylavaram, Andhra Pradesh
