Executive Summary

Customer-centric Manager and Account Leader with 10+ years of experience driving customer success, technical support operations, product adoption, and stakeholder engagement within SaaS and data-driven environments. A de-facto team lead, experienced in managing teams, mentoring junior members, coordinating cross-functional initiatives, and improving processes that enhance customer satisfaction and internal productivity.

Skilled in relationship management, customer retention, and handling escalations with clarity and ownership. Adept at bridging the gap between customers, product teams, and business leadership to ensure long-term value delivery and to increase customer base and loyalty.

Now seeking a full-time Team Lead or Manager role to formally enhance operational strategy, and deliver broader business impact.

Career Objective

To be part of a customer-facing team and improve operational efficiency through structured processes, mentorship, and data-driven decision making. I aim to create an environment where customers feel supported and teams feel empowered, while contributing to continuous improvement and organisational growth.

Professional Experience

Zoho Corporation, Chennai (Feb 2023 – Apr 2025)

Desk | Sites | Cliq | Meeting | Voice | CRM

Sales Development Representative / Technical Support Engineer

- Managed a growing pipeline of prospects and supported account managers with qualification, product positioning, and early-stage onboarding activities.
- Partnered with marketing, customer success, and product teams to align customer messaging, feedback loops, and onboarding workflows.
- Improved CRM processes by implementing enhancements that strengthened tracking of customer interactions and follow-ups.
- Delivered multi-channel technical support to global customers, ensuring quick issue resolution and consistent SLA compliance.
- Conducted product walkthroughs, troubleshooting sessions, and consultative guidance through video calls and remote sessions.
- Provided insights to product teams, contributing to feature improvements and user experience enhancements.
- Collaborated with Product, Engineering, and QA teams to drive faster and more accurate problem resolution.

Expanded Operational & Leadership Responsibilities

- Assisted team leads with weekly performance reports, pipeline reviews, and CRM clean-up to maintain data accuracy.
- Monitored ticket queues and optimized service operations to reduce delays and maintain SLA consistency.
- Scrutinized support contents across different channels, and identified areas of improvement and quality enhancements.
- Built reporting dashboards to track renewals, expansion opportunities, and customer success metrics across account segments.

EXL Service, Chennai (Jul 2015 – Feb 2023)

Data Analyst / Data Coordinator

- Acted as the primary communication between the organisation and clients, and guiding them through data protocols and compliance processes.
- Analyzed and validated datasets across file/warehouse levels to ensure accuracy before client delivery.
- Set up meetings with attorneys and para-legals for updates on insurance claims.
- Addressed client-reported issues with root-cause analysis and ensured timely, satisfactory resolution.
- Managed ticketing, documentation, and SLA compliance for ongoing projects.
- Coordinated with internal teams to improve data workflows and enhance overall project productivity.

Sutherland Global Services (Nov 2007 – Sep 2010)

Customer Support Executive/ Subject Matter Expert

- Delivered phone/email/chat support for a tax based product, resolving billing, usage, and account issues.
- Built lasting customer trust through empathetic handling of high-stress cases and transparent communication.
- Served as a de facto team lead by coordinating cross-team decisions, resolving escalations, and providing strategic support to improve overall team performance.
- Documented customer interactions and contributed insights for product and support process enhancement.
- Received multiple awards and recognitions for communication excellence and customer satisfaction.

Education

B.E – Electrical and Electronics Engineering - St. Joseph's College of Engineering, Chennai (2014).
