Dotnet & SQL Developer

Dedicated Dotnet & SQL Developer with 2.5 years of experience in .NET and SQL Server. Skilled in designing, developing, and troubleshooting applications with expertise in C#, ASP.NET, Web API, LINQ and SQL Server. Strong in object-oriented programming, database optimization and knowledgeable in front-end fundamentals. Committed to continuous learning and leveraging emerging technologies to drive performance and impactful results.

TECHNICAL SKILLS

Languages: C#, SQL, Javascript, Typescript, PLSQL

Technologies: NET Framework, .NET Core Framework, Web API, ADO.NET, Entity Framework, LINQ

Web Technologies: HTML, CSS, JavaScript, jQuery, Bootstrap

DataBase: Microsoft SQL Server, Oracle Database

Tools and IDEs: Git, Postman API, Visual Studio

WORK EXPERIENCE

Dotnet Developer & SQL Developer

Equitas Small Finance Bank • Chennai • On-site • Jun 2022 - Present

- Developed, maintained & implemented new features and enhancements to existing applications using C# and .NET, leveraging object-oriented programming for efficient, modular code structure.
- Managed SQL Server databases, including complex query optimization, stored procedures, and indexing strategies to enhance data retrieval speed and efficiency.
- Built a RESTful Web API partnering with Equifax, empowering business partners with effortless client verification, resulting in a double win: 5% reduction in loan processing time and Equifax costs.
- Successfully implemented a straight through process for existing clients, reduced turnaround time by 30%, enabled same-day loan disbursement, and increased monthly loan counts by 20%.
- Successfully developed & shifted the bank's APY Module from vendor dependence to being fully managed in-house, leading to an annual cost reduction of Rs 10L.
- Implemented complex business logic and data access layers using ADO.NET, Entity Framework and LINQ.
- Collaborated with cross-functional teams to ensure timely delivery of projects.
- Troubleshooted and resolved technical issues in a timely manner.

EDUCATION

Bachelor's degree in Computer Science

Vellore Institute of Technology • Jul 2018 - Jul 2022

Senior Secondary School in Science

DAV Public School • MCL, Kalinga Area, Talcher • Apr 2017 - Apr 2018

PROJECTS

T2T Integration between bank's procurement application with Oracle Fusion

Equitas Small Finance Bank

- Wrote optimized sql queries and collaborated with the Data Warehouse team to enable smooth table integration for the OCI team. This streamlined the data transfer process, replacing manual file-to-table transfers and ensuring

compliance with RBI guidelines.

MIS Reports Automation

Equitas Small Finance Bank

- Collaborated with the product team and MIS officers to develop logic for MIS reports, optimizing sql queries for enhanced efficiency. Automated the report generation using Dotnet technology, ensuring direct email delivery to business stakeholders for timely insights.

Client Sourcing and Verification through TAB

Equitas Small Finance Bank

- Developed a RESTful Web API in .NET Core for seamless integration with Equifax, enabling real-time customer verification and loan eligibility checks. Optimized database uploads to support API integration, reducing loan processing time by 5% and lowering Equifax costs.

Atal Pension Yojana Registration Module

Equitas Small Finance Bank

- Designed and developed an in-house APY module, enabling flexible registration for Atal Pension Yojana (APY) under NPS. Streamlined the workflow from registration to NSDL CRA data submission through integration with CBS and fund transfer APIs. Automated APY contribution deductions using a .NET Windows Service scheduler and migrated legacy data to ensure continuous deductions. Resulted module eliminated vendor applications and support, generating annual savings of Rs.10L for the bank.

MF-Straight Through Process Module

Equitas Small Finance Bank

- Spearheaded the development of a Straight-Through Processing (STP) module, streamlining the loan application process using existing customer data, resulting in a 30% reduction in processing time and enabling same-day disbursements. This increased the monthly loan count by 20%, improving customer satisfaction and business efficiency for both Business Correspondents and the bank.

Client Audit Module

Equitas Small Finance Bank

- Implemented a module within the bank's Business Correspondent App, empowering the Risk Team to conduct on-site cross-verification of loan processes.
- This module enhances risk management by simplifying field investigations, facilitates detection of fraudulent activities, and ensures regulatory compliance.

Data Flow Automation

Equitas Small Finance Bank

- Collaborated with the bank's core application team and the data warehousing team to facilitate the daily inbound data flow, thereby ensuring the seamless operation of applications reliant on core application data.
