
Darwin Arockiaraj

Chennai, India 600016 | 9994723874 | Darwinadam152@gmail.com

PROFESSIONAL SUMMARY

- More than 7.5 years of experience in Data Warehousing development and SQL programming.
- Experienced SQL developer skilled in optimizing queries in Snowflake for efficient data extraction, transformation, and analysis. Able to support various operational needs.
- Optimized and automated data workflows, loading, and transformation processes through the creation of efficient queries.
- Skilled in designing and managing Snowpipe to enable seamless data integration between AWS cloud and Snowflake.
- Utilized Snowflake tools, including Snowpipe, to optimize data processing and management workflows.
- Experienced data analyst delivering effective and scalable solutions to complex data issues.
- Proficient in utilizing Snowflake's native support for handling semi-structured data formats like JSON.
- Strong communicator of technical concepts with a focus on enhancing collaboration and knowledge sharing through detailed documentation.
- Developed and implemented data models, ER diagrams, and source-to-target mappings to ensure effective data organization and management.
- Participated in iterative development cycles, enhancing data workflows and processes while adhering to Agile methodologies.
- Experienced with Snowflake cloning to quickly create copies of databases and tables without using extra storage

Skills

- Snowflake DB
- AWS S3
- ETL Concept
- Oracle SQL
- PL/SQL

TOOLS

- JENKINS
- IICS
- SQL DEVELOPER
- JIRA
- GITHUB DESKTOP

PROJECT DESCRIPTION

As part of this project, we are migrating objects from Oracle and third-party files to Snowflake using a combination of external stages, tasks, stored procedures, and AWS S3 storage integration. This ensures seamless data transfer and automation through Snowflake's integration with AWS S3 buckets.

Experience

SNOWFLAKE DEVELOPER | 04/2022 - 10/2024

ITC Infotech - Bangalore, IN

Client - Morgan Stanley

Environment - Oracle, AWS S3, Snowflake DB

- Directed the creation of scalable data warehouse solutions in Snowflake, ensuring high performance and reliability.
- Created and optimized complex SQL queries for data analysis and business intelligence, delivering actionable insights.
- Oversaw the smooth migration of data from Oracle to Snowflake using flat files, simplifying application migration processes.
- Developed and maintained critical Snowflake objects, including warehouses, schemas, databases, tables, views, pipes, stages, and scaling policies, to optimize data operations.
- Skilled in loading and processing semi-structured data using the VARIANT data type, flattening techniques, Parquet format, and other advanced methods.
- Created and automated Snowflake procedures, functions, and User Defined Table Functions (UDTFs) to improve data manipulation and automation processes.

SNOWFLAKE DEVELOPER | 10/2021 - 03/2022

Inknowtech Pvt Ltd - Bangalore, IN

Client - Citigroup

Environment - Oracle, AWS S3, Snowflake DB

- Took charge of developing scalable solutions for Snowflake data warehouse projects, improving efficiency and performance.
- Set up internal and external stages to transform data during the loading process.
- Actively engaged in AWS-Snowflake testing to identify the most efficient utilization of cloud resources.
- Skilled in creating and executing Snowflake stored procedures and user-defined functions for deploying code to higher environments.

SNOWFLAKE DEVELOPER | 09/2018 - 10/2021

I-Source infosystems Pvt Ltd - Bangalore, IN

Client - Barclays

Environment - AWS S3, Snowflake DB

- Contributed to the migration of database objects from Oracle to Snowflake, ensuring accuracy and efficiency throughout the process.
- Worked with AWS admin to setup the IAM (Identity and Access Management) Roles and Policies for the project to access specific bucket.
- Worked on create AWS S3 Life Cycle Management on the objects in buckets.
- Experience in Loading CSV files, parsing semi structured data like JSON & Parquet, receiving from third party vendors.

CUSTOMER SUPPORT ASSOCIATE | 08/2017 - 07/2018

Futurecalls Technology Pvt Ltd - Chennai, IN

Client - AGS Healthcare

- Provide end user support to users through call, chats and remotely (Bomgar, RDP, Windows remote assistance, Teams)
- Handling Citrix connectivity, Certificates and applications and managing VDI desktop Managing Bomgar remote tool providing session to vendor
- Working with problem management team for escalated issues and tracking the updated status, workarounds and permanent resolution

DECLARATION

I hereby declare that all the above statements are true to the Best of my knowledge.
