**Location** - Trivandrum, Kerala

**Email** - zeppelinidave1389@gmail.com  
**Phone** - +91 7994405622

## EDUCATION

**Saintgits College of Engineering (2020-2024)**  
*Bachelor of Technology in Robotics and Automation; CGPA - 8.4*

## SKILLS

- Languages - Python, SQL
- Frameworks - Keras, Matplotlib, Scikitplot, Pandas, Numpy
- Tools - MS Excel, Power BI, Tableau, Salesforce, SAP, MySQL, GPT(prompts)
- Diagrams - UML diagrams, Business Process Diagrams
- Soft skills - Requirements Gathering, Business Communication, Project management, Finance Management
- Analytics - Risk assessment, KPI analytics, Process analysis, Predictive Analysis, Dashboards

## WORK EXPERIENCE

**Business Analytics internship | KultureHire** Nov 2024 - Nov 2024

- Served as a business analyst intern dealing with stakeholder identification and roles, data analysis, and business presentation.
- ChatGPT based Excel analysis, dashboards, ETL, data standardization and SQL queries based on business question framework, addressing gender based data distribution, critical corporate statistics and framing appropriate business questions.
- Dataset with current career hassles data, and analysis of public opinion to rewire current business and corporate frameworks.

**Assistant System Engineer - Trainee | Tata Consultancy Services** Sep 2024 - Oct 2024

- Underwent training in IT Infrastructure Services, viz. Network, Linux and Windows.
- Imbided foundational training in office disciplines, enhancing effective communication and corporate project knowledge.

## PROJECTS

**Rocket Systems Analysis** Nov 2023 - Nov 2023

- Utilized Tableau software to extract useful metrics from NASA rocket system data.
- Rocket lifecycles were analyzed to extract subsystems with more than 80% efficiency.
- Figure relationships were constructed to analyze subsystem efficiency, identify critical subsystems as less than 60% efficient and derive performance patterns using various plots.

**Revenue Analysis** Sep 2023 - Sep 2023

- Utilized MS Excel and Power BI for overall performance of a company.
- Extraction, Transformation and Load (ETL) principle was used to construct useful dataset from raw financial data.
- Expenditure was analyzed to detect outliers, above 200,000 dollars for a single quarter.
- Data forecasting was utilized on current dataset to produce structured expenditure for the successive year, with maximum expenditure of 50,000 dollars for a single segment.
- Revenue was analyzed by identification of potential sources as well as elimination of outliers below first quartile of 75,000 per project.

## CERTIFICATIONS

**Microsoft Excel: Beginner to Advanced in animation 2024 + AI | Udemy** Nov 2024

- Training focused on basic Excel functions to advanced formulae, functions and features such as pivot tables, charts and dashboards.
- Hands-on experience through projects dealing with AI based data analysis and dashboards using ChatGPT in Excel was gained.

**MySQL for Data Analytics and Business Intelligence | Udemy** Nov 2024

- Implemented basic and advanced SQL queries including advanced JOIN, user-defined functions, subqueries, CASEs, MySQL window integration and integration with Tableau.
- Hands-on experience with various functions of queries, advanced functions for database manipulation gained, with further data analysis using Tableau.

**Project Management | Forage - Siemens Mobility** Oct 2024

- Developed and applied analytical skills to establish strategic key performance indicators (KPIs), enhancing the monitoring of rail infrastructure projects and ensuring alignment with Siemens Mobility's goals.
- Demonstrated adaptability and problem-solving in real-world scenarios, including navigating construction challenges and stakeholder feedback, to maintain project momentum and stakeholder confidence.

**Introduction to Data Science| Forage - Commonwealth Bank** Oct 2024

- Demonstrated proficiency in creating data engineering pipelines to aggregate and extract valuable insights from datasets, optimizing data-driven decision-making.
- Acquired skills in anonymizing personal data within datasets, ensuring compliance with data privacy regulations.
- Proposed effective data analysis approaches, particularly related to social media, and demonstrated the ability to design well-structured databases for efficient information management.

**Data Analytics | Forage - Quantum** Oct 2024

- Developed expertise in data preparation and customer analytics, utilizing transaction datasets to extract valuable insights and deliver data-driven commercial recommendations, using Python libraries such as pandas and matplotlib.
- Extended analytical capabilities to identify benchmark stores for conducting uplift testing on trial store layouts, enabling evidence-based decision-making.
- Leveraged acquired data analytics and insights from previous tasks to create comprehensive reports for the Category Manager, facilitating informed strategic decisions and enhancing commercial applications.

**Power BI Analytics | Forage - PwC Switzerland** Oct 2024

- Demonstrated expertise in data visualization through the creation of Power BI dashboards that effectively conveyed KPIs, showcasing the ability to respond to client requests with well-designed solutions.
- Leveraged analytical problem-solving skills to examine HR data, particularly focusing on gender-related KPIs, and identified root causes for gender balance issues at the executive management level, highlighting a commitment to data-driven decision-making.
