

DEEPESH VERMA

Senior Software Engineer

PROFILE SUMMARY

Over 9+ years of experience in all stages of SDLC involving studying of the user requirements, analyzing, designing, coding, implementation, debugging, testing, deployment and documentation across diverse industries / work environments.

Hands on experience in development and implementation of high-end applications with Microsoft .Net Framework 4.0/3.5/3.0/2.

7+ Year experience in RPA UIPATH, Orchestrator, Queue Configuration, bot deployment, Architecting the solution and managing the whole process from start to end.

As an Individual Contributor in Robotic Process Automation (RPA), I demonstrated a deep understanding of automation principles and technologies to streamline business processes and enhance operational efficiency. With a strong background in RPA tools, OCR and methodologies, I actively contributed to the design, development, testing, and implementation of automation solutions that effectively eliminated manual tasks and minimized errors.
