SUMMARY

Experienced Android app developer with more than 9+ years of experience in senior mobile development. Specializes in architecture design, improving performance, and leading teams. Successfully decreased first-time user drop-offs by 20% and reduced tech debt by 50% within 3 months. Revamped apps and Improved overall performance by minimizing memory leaks. Played a key role in the rapid growth of multiple start-ups.

PROFESSIONAL EXPERIENCE

Senior Developer Mobile Solution L2

Publicis Sapient 05/2023 - 03/2024 Bengaluru

Tech used: Jetpack Compose, MVVM, Clean Architecture

- Collaborated with a team of 5 to modernize Lloyds Bank legacy project, resulting in a 10% enhancement in overall performance and elimination of 30% tech debt, leading to increased productivity and cost reduction for the company.
- Led a cross-functional team to deliver a complex mobile solution in 7 months, adhering to the client's timeline.

Senior Software Engineer

Medibuddy 01/2021 - 01/2023 Bengaluru

Tech Used: MVVM, Clean Architecture, Firebase Config, Agora, 100ms, MQTT

- Implemented the Unified Login feature, reducing first-time user drop-offs by 20% and enabling user journey tracking. Collaborated with project managers and tech teams on architecture design and backend implementation.
- Managed a team of 3 to successfully complete Consult Super Pod sprint planning and development.
- Managed releases for Medibuddy Patient and Doctor app, ensuring smooth deployment, and took accountability for reducing crashes and ANR rates.
- Managed the successful development and release of a high-impact application, reaching a user base of over 10 million and a daily active user count of 250,000.

Senior Android Application Developer

QuickRide 08/2017 - 12/2020 Bengaluru

Tech Used: MVC, RxJava, Google Maps, MQTT, FCM, Architectural changes

- Revamped application functionality with a team of 3, resulting in an 80% reduction in user-reported UI bugs, an 80% improvement in memory leaks, and a 50% increase in overall app performance, leading to a more stable and efficient app.
- Enhanced MQTT and network connections, resulting in 30% faster data transmission and 30% decrease in connection errors. Boosted overall user satisfaction and received team recognition.
- Successfully delivered the QuickRide Marketplace product within a challenging 3-month timeframe.

Android Application Developer

MyOperator, VoiceTree 04/2015 - 07/2017 New Delhi

Tech Used: MVC, Volley, Content Provider, SyncAdapter, SNS

- Improved system efficiency, reducing crash and ANR rate by 90%, resulting in enhanced reliability and user experience and fixed major functionality issue.
- Enhanced user experience by 50% through the proactive upgrade of MyOperator app with modern Material Design guidelines and the latest libraries, such as the implementation of the Volley library for efficient REST calls. This resulted in a 45% reduction in tech debt, leading to improved app stability and performance.
- As a newcomer, quickly took charge of the entire application, demonstrating adaptability and a rapid understanding of responsibilities.

TECHNICAL EXPERTISE

Kotlin	Java	Coroutines	Dragger/Hilt	
RxJava	Jetpack	MQTT	ProGuard	
Retrofit	CI/CD	Jira	JUnit	Branch
Scrum	New Relic	LeakCanary		Git
Crashlytics	WatchDog		CleverTap	
WireMock	WebSockets		Mixpanel	
Figma	GitHub Actions		Firebase	
Mockito	Android Profiler		Optimization	
Agora	100ms	MediaPipe/AR Core		

EDUCATION

Bachelor of Computer Science and Engineering

Biju Patnaik University of Technology, Odisha

GPA
7 / 10

2010 - 2014 Bhubaneswar

STRENGTHS

- Critical Thinking**
Analytical problem-solver, adept at evaluating complex information, identifying key issues. Old project refactoring and developing solutions to application performance issues.
- Go-Getter**
Self-starter with a track record of driving initiatives and consistently meeting company and self OKRs.
- Self-Disciplined**
Self-disciplined professional with consistent track record of meeting deadlines and goals with effective time management and focus.

MY TIME

Coding & Code Review

Collaboration

Mentoring & Troubleshooting

Release Management
