

DHARSAN RAJ P

📍 Trichy | 📞 +91 8610711573 | ✉️ dharsanrj7@gmail.com

To associate with a progressive organization that enhances my knowledge and skills according to the latest trends and to become a part of a team that dynamically works towards the growth of the organization and gains satisfaction.

PROFESSIONAL SKILLS

- Over **4+ years** of **extensive experience specializing in Snowflake Developer** and **PL/SQL development**.
- Proficient in setting up and managing Snowflake environments, including creating and configuring snow pipes to integrate **data between AWS cloud S3 and Snowflake databases**.
- Advanced Snowflake features such as **time travel, fail-safe, and data sharing, enabling efficient data management and collaboration** across Snowflake accounts.
- Skilled in utilizing sequences within Snowflake to generate sequential data sequence numbers for **primary key serials, ensuring data integrity and consistency**.
- Worked on creating the **DB object like tables, sequences, synonyms, constraints for the table, packages, procedure, function, view, job scheduling and materialized view**.
- Worked on SQL queries for **DML operations, dynamic SQL query and bind variables**.
- Worked on writing complex SQL queries with **join, aggregate function and analytic function**.
- Experienced in implementing snow stream objects to facilitate the creation of audit tables for data backup, capturing changes made through **DML operations on base tables for comprehensive data tracking and compliance**.
- Proficient in developing at the source side, ensuring both **functional data dependencies and technical integrity** are maintained throughout the data pipeline.
- Expertise in employing Clone techniques within **Snowflake databases to perform data backups as needed, providing a reliable mechanism** for data recovery and redundancy.
- Experience on **creation of Procedures, Functions, Packages, Triggers and Exception Handling as per business requirement using PL/SQL**.
- Excellent understanding of **Oracle SQL, PL/SQL, RDBMS** concepts and Query tuning
- Extensively used **AWR Report identify top SQLs** and continuously improve the system.
- Good knowledge in **Advanced PL/SQL concepts like Types, Collections, BULK COLLECT**.

TECHNICAL SKILLS

- **Oracle RDBMS (12c,19c), SQL Server 2019.**
- **SQL, PL/SQL, SNOWSQL, UNIX.**
- **Snowflake, AWS, Time Management Service Now.**
- **JIRA, Remedy SQL Developer, Toad, SQL Server Management Studio Microsoft Windows.**
- **UNIX, Critical Thinking.**

EDUCATION

Bachelor of Engineer in Computer science and Engineering
Karpagam Academy of Higher Education (2015 - 2019)

WORK EXPERIENCE

JUL 2023 – MAR 2024

Wipro Technologies
Senior Software Engineer

Project Name:(PNC BANK)

- Proficient in orchestrating seamless data migration from Oracle Database to Snowflake utilizing flat files, ensuring smooth application migration and minimal disruption.
- Extensive experience in Snowflake object development encompassing warehouses, schemas, databases, tables, views, pipes, stages, and scaling policies, facilitating efficient data organization and management. Skilled in structured data migration within Snowflake, employing techniques such as creating stages, copying data, transforming data as necessary, handling copy errors, defining file formats, and utilizing various copy options for

optimal data transfer.

- Hands-on experience in loading unstructured data efficiently into Snowflake using advanced features such as VARIANT datatype, flattening nested data structures, leveraging Parquet file format, and other optimization techniques.
- Proficient in developing Snowflake procedures, functions, and User Defined Table Functions (UDTFs), enabling customized data processing and manipulation within the Snowflake environment.
- Experienced in creating external tables within Snowflake to seamlessly access data from external files, particularly useful in scenarios where direct file access is restricted or denied within AWS S3.
- Managing Jira Scrum Boards / dashboards and responsible for maintaining Sprints, backlogs. Facilitating scrum meetings - daily stand-up, backlog grooming, sprint planning and more.

Jan 2022 – FEB 2023

CAPGEMINI
Associate Consultant

Project Name:(RFIB INSURANCE)

- Involved in the creation of database objects like Tables, Views, Stored Procedures, Functions, Packages, DB triggers, Indexes
- Involved in new application environments creation and configured as per the customer requirements.
- Involved in minutes of meeting session with customers on daily.
- Responsible for the designing the advance SQL queries, procedure, function, package, cursor, triggers, scripts.
- Created indexes on the tables for faster retrieval of the data to enhance database performance.
- Developed SQL loader scripts to load data in the custom tables.
- Created Materialized views & normal views where business requirements needed Extensively used bulk collection in PL/SQL objects for improving the performing.
- Handled errors using Exception Handling extensively for the ease of debugging and displaying the error messages in the application. Client handling & onsite co-ordination.

APR 2019 – AUG 2021

ELEGANT CARVE TECHNOLOGIES
Junior Software Engineer

Project Name:(F&C BANK)

- Worked on creating the DB object like tables, sequences, synonyms, constraints for the table, packages, procedure, function, view, job scheduling and materialized view.
- Worked on SQL queries for DML operations, dynamic SQL query and bind variables.
- Worked on writing complex SQL queries with join, aggregate function and analytic function.
- Data processing - Collect, clean, and prepare data for analysis, as well as create dashboards and other KPI business reports for stakeholders for data driven decision making.
- Responsible for curating data from stakeholders, conduct meeting.
- Performed a wide variety of edits and validations, investigate data quality issues and implementing appropriate solutions.

CERTIFICATIONS

- Certified in Real time concepts of software and Networking Domain, Authorized by HP

DECLARATION

I hereby confirm that the information provided is accurate to the best of my knowledge.
