EXPERIENCE

Software Engineer

Altaneofin

May2024- Present India(Gurugram)

- Vendor financing project
- **Tech Stack:** Java 17, Spring Boot, Spring Security, REST APIs, MySQL, Python, Redis, AWS
- Developed a **microservices-based** vendor financing system with seamless **integration** of third-party APIs for **KYC** (PAN, GST verification).
- Utilized **Spring Security** to implement secure login, including **IP-based authentication** and **JWT token** management, ensuring robust authorization.
- Integrated **Python OCR** for automated document parsing, extracting key information (e.g., bank account numbers, IFSC codes) from **PDFs**, reducing manual input errors and improving processing speed.
- Optimized database performance using **indexing** and **query optimization**, ensuring scalability to handle large datasets of sensitive KYC information.
- Designed scalable **REST APIs** following **SOLID principles** for high throughput transaction processing, resulting in a **30% reduction in system latency**.
- Implemented **Redis caching** for frequently accessed data, reducing redundant database calls and improving response times by **20%**.
- Deployed the application on **AWS** using **Ec2**, ensuring **CI/CD** with **Jenkins** and **Docker** for seamless integration and deployment.

Software Engineer

Freelancing(working for stock broking firm)

May2023- Present India(Remote)

- Efficiently responsible for Kyc project for a company built
- Microservice which integrated with government APIs using core Java, SpringBoot, and microservices, leveraging OkHttpClient to optimize data synchronization and enhance system performance, resulting in a 30 percent reduction in latency.
- Build from Scratch to production includes Unit test cases, Jenkins Deployment with Deployed on AWS Beanstalk.

Associate Software Engineer

Clarivate

Jul 2022 - April 2023 India(Remote)

- Member of Compumark Development team.
- Responsible for solving P3 bug fixes in Test environment.
- Effectively manage task within Jira, maintained control version & collaborated seamlessly with team of developers.

SKILLS

Programming

Java(Core & advance) • J2EE • Javascript
• Design patterns • Data Structure & Algorithms

Datastore

SQL • Redis • MongoDB • AWS RDS

Devtools

Git • Jenkins(CI-CD) • Docker-Containers
• Unit-Testing (JUnit, AssertJ)

Cloud

AWS stack(Lambda, EC2(T2 micro), Cloudwatch, S3Bucket, Elastic Beanstalk)

Miscellaneous

REST • gRPC • GraphQL • Nginx

Event Streaming

Kafka

ACHIEVEMENTS

☆ Published an article on Medium in Concept of pushing high Volume of data in reduced time span in Java.

☆ Top 2 per ranking among over 1,000 participants in an intercollegiate competition on InterviewBit.

☆ Youth empowerment Foundation Assistant teacher

☆ Part of Nss Msit.

EDUCATION

Bachelors of technology 7.68 CGPA
Maharaja Surajmal institute of technology
Jul 2018- Aug 2022

High School
Kendriya Vidyalaya Masjid moth
2004 - 2017
