Email: dudekula.reshma1993@gmail.com

Contact No: +91-9398003215

Professional Summary:

- Total 2.3 years' experience in Software Development Life cycle from requirements management to production support.
- Developed and maintained data ingestion and processing systems.
- Experienced in AWS deployments using **Python**
- Good experience on **AWS Services like** Apache Airflow,RDS,S3,DMS,Glue.
- Designed data architecture diagrams
- Experienced in object oriented Programming (**OOP**) concepts using Python
- Experienced in working with various Python Integrated Development Environments like **IDLE, PyCharm**
- Deployed the project using **GIT** version control system
- Good knowledge in maintaining various version controls systems such as **GIT**
- Good knowledge in Azure

Working Experience:

- IT Analyst in **TCS** from June 2024-August 2024.
- Sr.Consultant – Python Developer in **O2F Info Solutions Pvt Ltd** deputed for **TCS** from May 2022 – June 2024.

Educational Qualifications:

- M.Tech(CSE) from St.Mark College Anantapur, AP in the year 2017.
- B.Tech(CSE) from Intell Engineering College Anantapur, AP in the year 2014.
- Intermediate(MPC) from Nalanda Jr College Anantapur, AP in the year 2010.
- SSC at G.O.S.Girls High School Anantapur, AP in the year 2008.

Technical Skills:

Programming Languages	Python 3x,SQL
Cloud Techmologies	AWS,Azure
Databases	Teradata,oracle,PostgreSQL,Dynamo DB
Operating System	Windows
Web Technologies	HTML
Versioning Tools	GIT
ETL Tools	Informatica Power center

Projects:

Project #1

Client : Delta Air lines
Role : Data Engineer
Project : Delta RLD Support & Maintenance
Project Duration : May 2022 - August 2024

Responsibilities:

- Designed and implemented data solutions suited to deliver to our customer needs.
- Completed software development life cycle experience including design, documentation, implementation, testing and deployment.
- Developed and updated ETL system by using Python 3.10.
- Experienced with informatica powercenter(Repository Manager,Designer,Workflow Manager and Monitor)
- Migrated Informatica jobs to AWS
- Experienced with Pandas,pydantic and pyspark libraries for data validation during development of informatica jobs.
- Experienced with AWS deployments and worked with Services like DMS,S3,Glue,Lambda,MWAA,Dynamo db,cdk,RDS,Apache Airflow
- Designed database table to store the applications data
- Wrote and Executed Sql data base queries from python using sqlalchemy library and used oracle,Teradata,Postgres.
- Conducted data cleaning and preparation tasks.
- Provided the data comparison report based on parallel testing by using SQL queries.
- Ingested data from various sources in the AWS environment
- Stayed up-to-date with the latest AWS services and technologies and recommended new solutions to improve data engineering process.
- Handled production support and maintenance
- Continuously monitored emails and maintained the production support for datalake sources.
- Monitored Event streaming UI's for Fpes and Pids.
- Experienced with Kafka tool for streaming data of datalake sources.
- Worked on resolving migration issues like table errors and ddl changes.
- Involved in database patching and RFC's
- Technologies used : Python,Sql,AWS
