Objective

Results-driven Data Analyst having 2 years of experience in leveraging advanced data analysis tools (Python, Excel, Power BI, MySQL) to extract, clean, and interpret complex datasets. Proven ability to collaborate with cross-functional teams, lead data projects, solve intricate data challenges, and effectively communicate insights to stakeholders. Seeking to contribute analytical expertise and problem-solving skills to drive data-driven decision-making and support business objectives in a dynamic organization.

Experience

Data Analyst: Blox.xyz Jul 2023 - Present

- Collaborated with key business stakeholders to deliver insights, enhancing growth opportunities by 25%.
- Analysed large datasets using SQL and Python, identifying key trends and patterns, which improved data-driven decision-making by 30%.
- Developed and presented data visualizations using Power BI, resulting in enhanced stakeholder understanding of complex data sets.
- Utilized problem-solving skills to identify trends, uncover anomalies, and resolve data quality issues, contributing to optimized business processes.
- Demonstrated expertise in training, teamwork, leadership, problem-solving, & communication skills while serving as a data analyst, contributing to successful project outcomes & effective collaboration across departments.

Technical Skills

- Data Analysis: Python, SQL, Excel
- Data Visualization: Tableau, Power BI, matplotlib, seaborn
- Database Management: MySQL, PostgreSQL
- Statistical Analysis: Descriptive Statistics, Inferential Statistics, Hypothesis Testing, Regression Analysis
- Machine Learning: scikit-learn, TensorFlow, Keras (basic understanding)
- Data Cleaning and Preprocessing: Pandas, NumPy, Data Wrangling
- ETL Processes: Data Extraction, Data Transformation, Data Loading
- Version Control: Git, GitHub
- Reporting: Interactive Dashboards, Reports, Power BI Dashboards & Reports
- Data Warehousing: Data Warehousing Concepts, Tools
- Programming Languages: Python, SQL, Microsoft Power BI, Microsoft Excel
- Cloud Platforms: AWS, Google Cloud Platform (basic understanding)

Soft Skills

- Analytical Thinking
- Problem-Solving
- Communication
- Teamwork
- Leadership
- Attention to Detail
- Time Management
- Adaptability
- Critical Thinking
- Interpersonal Skills

Education

Bachelor of Science in Information Technology (BSCIT), University of Mumbai, CGPA: 6.90 Jun 2016 - Apr 2019

Certifications

Data Science Certification: Eduonix Learning Solutions Pvt Ltd May 2023 - May 2024

Master in Artificial Intelligence: InsideAIML Dec 2021 - Jun 2022

Projects

- Road Accidents Analysis: Performed a detailed statistical data analysis on Road Accidents of India over a period of 2003 to 2016 years using various Python Libraries.
- Netflix Prime Hot-star Dashboard: A Power BI Dashboard project which tells the insights on OTT platforms such as Netflix, Amazon Prime and Disney plus Hot-star.
- Cancer Prediction Using Machine Learning: Using Machine Learning to Predict Diagnosis of a Cancer.
- E-commerce company - Data analysis: Analysis of shipment cost between courier company and e-commerce company.
- Hate speech detection: A model that identifies hateful & offensive speech being poured on internet.
