SUMMARY

Crafting seamless user experiences with reusable components and a dash of JavaScript magic — React.js developers build the web of tomorrow

EXPERIENCE

ReactJS Developer

Hrisha Technologies Pvt Ltd

October 2023 – Present

- Engineered dynamic user interfaces for web applications using ReactJS, increasing the application speed by 50% and enhancing user engagement through seamless navigation and interactive elements.
- Integrated RESTful APIs with ReactJS applications, enhancing data retrieval efficiency by 60% and improving real-time data updates, contributing to superior user experience and application responsiveness.

Frontend Developer

Oracle

March 2022 – September 2023

- Enhanced user experience by developing responsive web interfaces using React.js and Redux, boosting user engagement metrics by 30% within a quarter at Oracle.
 - Integrated RESTful APIs with frontend applications, ensuring seamless data flow and real-time user interaction, which improved client-facing application responsiveness and elevated user satisfaction scores by 20%.
-

PROJECTS

1)Online T-shirt Shopping Platform

- Developed a UI for browsing, searching, filtering, and cart management using React.js.
- Ensured persistent cart functionality across navigation using local storage.
- Leveraged SCSS and Material-UI to achieve a clean and responsive design.

2)Recipe Sharing Platform by AI

- Interactive User-Generated Content: Users can upload, rate, and comment on recipes, fostering a vibrant community-driven platform.
 - AI-Powered Suggestions: The platform leverages AI to recommend recipes based on the ingredients users have in their pantry, making meal planning smarter and more efficient.
 - Advanced Search and Filters: Users can find recipes tailored to their preferences using filters like cuisine, cooking time, and difficulty.
-

EDUCATION

Bachelor of Technology

Gyan Ganga Institute of Technology and Sciences • Jabalpur (MP) • 2020

Higher Secondary School

Kendriya Vidyalaya Sangathan • Seoni (MP) • 2016

SKILLS

- Languages: JavaScript, HTML, CSS, Java8, SQL
- Libraries: ReactJS, Redux, ReduxToolkit, MaterialUI, ActernityUI, SASS, ContextAPI
- Tools: Node, NPM, Vite, Webpack, Git, GitHub, VSCode, Webpack, Babel, JIRA,
