EXPERIENCE

Intern

May 2022 – Sep 2022

Skillmine Technology Pvt Ltd

- **Full-Stack Development Certification:** Completed a comprehensive full-stack development course on Udemy, gaining expertise in both frontend and backend technologies.
- **Hands-on MERN Project Experience:** Gained practical experience by building and deploying projects using the MERN (MongoDB, Express, React, Node.js) stack.

Software Developer

OCT 2022 – Present

Skillmine Technology Pvt Ltd

Sathibazar E-commerce Project

- As the lead developer on the Sathibazar e-commerce project, I played a pivotal role in the creation and management of shopping, admin, and seller portals. My responsibilities included overseeing the development lifecycle, coordinating with cross-functional teams, and ensuring smooth integration of key features that enhanced user experience and operational efficiency.
- A key aspect of my work involved integrating payment gateways such as **Razorpay** and **Paynimo**, where I successfully implemented split payments to facilitate smooth financial transactions between multiple parties. I also worked extensively on third-party APIs to manage **Split payments**, ensuring secure and timely processing.
- In addition to payment processing, I developed features for sending **Automated emails** and **SMS notifications**, streamlining customer communication. I took charge of building critical e-commerce functionalities including order creation, cart management, wishlist, report generation, and invoicing with complex taxation rules.
- My work focused on delivering scalable and user-friendly solutions while maintaining high standards of performance and security. By leveraging my expertise in technologies such as Nest.js, and MongoDB, I ensured that the Sathibazar platform met both client and end-user needs with precision and excellence.
- This project honed my leadership, technical, and problem-solving skills while allowing me to drive the successful launch of a robust e-commerce platform.

ACHIEVEMENTS

- **Spot Award for Outstanding Performance:** Recognized for consistently going above and beyond in delivering high-quality work and contributing to team success in Skillmine.
