

PRIYANKA JAMKHANDI

Priyankajamkhandi9@gmail.com —9110879870—[Linkedin](#)—Bangalore

Profile

Recent Computer Science graduate with a passion for transforming data into insights. Proficient in Power BI and SQL, skilled in analytics and data interpretation to support decision-making and optimize business processes. Eager to contribute strong analytical skills to a data-driven organization.

Education

Jain college of engineering, Belagavi.

B.E in Electrical and Electronics Engineering (2020 – 2024)

CGPA:7.2

Saini Ketan PU College, Jamkhandi (2018 – 2020)

Percentage:71%

Tungal English Medium High School, Jamkhandi (2018)

Percentage:87%

Skills

- **Data Analysis:** Data Validation, data modeling, data visualization (Excel, SQL, Power BI).
- **Power BI:** Dashboards, DAX, Power Query, Power Pivot, data modeling, publishing reports.
- **SQL:** Data extraction, ETL processes, joins, Stored procedure, CTAS, Normalization.
- **Excel:** Pivot tables, VLOOKUP, data cleaning.

Projects

1. HR Analytics Dashboard (Power BI).

- Utilized a CSV file as the data source.
- Cleaned and transformed data using Power Query.
- Designed a star schema for Data modeling, linking fact and dimension tables.
- Developed a multi-page report with features like bookmarks, tooltips, and custom visuals, incorporating DAX functions.

2. Library Management System (SQL)

- Designed and implemented a LMS using SQL for efficient database creation and management.
- Performed CRUD operations and utilized SQL queries to retrieve and manipulate data.
- Demonstrated skills in database design, data analysis, query optimization.

3. Data-Driven Strategies for Workforce Equality (PwC Power BI Job Simulation on Forage).

- Strengthened Power BI skills by creating data-driven dashboards that effectively visualized key performance indicators (KPIs) to address client needs.
- Analyzed HR data with a focus on gender-related KPIs, identifying root causes of gender balance issues at the executive level.
- Communicated insights and actionable recommendations to engagement partners, promoting data-driven decision-making.

Certifications

- Data Analyst Master Program, Besant Technology (August 2024 - Present).
- Pwc Power BI Job Simulation Forage (August 2024 – October 2024).
