

PRIYANKA KANADE

React Developer | Front-End Developer

724-951-7622 | kanadepriyanka1997@gmail.com | [linkedin.com/in/priyanka-kanade-431208217](https://www.linkedin.com/in/priyanka-kanade-431208217)

Experience

LG-Soft India : Research and Development Engineer | Front-End Developer Oct.2021 – Feb.2023

LG Channels Overlay UX:

Bangalore, India

- Implemented Overlay subtitles by extracting data from WebVTT files and displaying them on top of LG Channels with effects for text, images, and videos.
- Integrated links to launch other applications, such as YouTube, Netflix, LG Channels Home, and Bean Browser, by clicking on text, images, or videos in the Overlay UX, boosting user interaction.
- Enabled the display of ads or promotional content around videos within a specified time frame. Utilized the React framework to design and implement the Overlay UX for video and other content.
- Collaborated with the server team to handle data retrieval from the WebVTT file, ensuring seamless integration with the UX and providing the capability to incorporate surveys or marketing ads as needed.
- Diagnosed and resolved over 50 front-end performance issues, improving the user experience of the LG Channels Home App by reducing load times by an average of 30%, resulting in enhanced customer satisfaction.

In App Search:

- Created search functionality for the LG Channels Home App, integrating Auto Suggestion, and Recently Searched Keywords features, which enhanced user navigation efficiency by 40%, leading to increased customer engagement.
- Developed reusable React components to simplify the development process. This improved code organization and made it 60% easier to reuse in future projects.
- Strong in developing responsive and user-friendly interfaces, improving application performance through best practices, and collaborating with designers and backend developers.

CP Integration Onboarding and Tracking:

- Onboarded content for over 5,000+ channels/VODs for LG Channels across the globe by communicating with content providers.
- Collaborated with back-end developers to ensure seamless interaction, resulting in a 20% increase in overall system performance.
- Fostered strong collaborative relationships with content providers and back-end developers, ensuring the timely onboarding of over 5,000 channels and enhancing team efficiency and communication throughout the project.

Projects

NearByU: React, JavaScript, HTML, CSS, MySQL, Spring Boot

Sept.2021

- Built a centralized platform providing access to 100+ service providers, such as plumbers, carpenters, painters and more, enhancing customer engagement with easy browsing of professional profiles and essential details.
- Profiles for over 100 service providers were showcased, each highlighting key details such as expertise, qualifications, customer reviews, and clear pricing to help users make better decisions.

Technical Skills

Languages: React, Redux, HTML, CSS ,JavaScript

Developer Tools: Git, JIRA, Source Insight, MobaXterm, Eclipse, Jenkins

Education

CDAC IET

Pune, India

PG Diploma in Development of Advanced Computing

May.2021 - Sept.2021

(DSA, Java, SQL, React, JavaScript, Node.js, HTML, CSS)

Dr. J.J. Magdum College Of Engineering, Jaysingpur

Kolhapur, India

Bachelor Of Engineering (Computer Science)

2015-2020

Languages

- English, Hindi, Marathi, Kannada

Interests

- Keen on learning new things, traveling, dancing and music.
