PROJECTS

Bus Ticket Reservation System

The focus of the project is to computerize travelling company to manage data, so that all the transactions become fast and there should not be any error in transaction like calculation Mistake, bill generation and other things. It replaces all the paper work.

Campus-Drive Management System

The "Campus Drive Management System" is created to combat the system's high unemployment rate among graduates. The application serves as a link between students and the company. The user does not require any complex knowledge to use this system. As a result, it demonstrates that it is user friendly. The purpose of the campus drive management system is to keep track of student, job, and vacancy information.

Airline Reservation System

To Provide a user-friendly interface for customers to search and book flights. To allow users to view entire flight information of the airline. To allow users to check the availability of flights. To allow users to Book tickets.

Training & Certifications

- Training & Certification in **Core JAVA, SQL, JDBC** from QSpider Software Training Institute, Bangalore.
- Completed “**Java Programming**” training & certification from Great Learning Academy.
