Thiruvallur, Tamil Nadu

Professional Summary

Highly motivated and experienced Oracle PL/SQL Developer with 6 years of experience in designing, developing, and maintaining databases. Proficient in SQL, PL/SQL, and database administration.

- Designed and developed databases for large-scale applications
- Collaborated with cross-functional teams to identify and prioritize project requirements
- Implemented database security measures to ensure data integrity and confidentiality
- Optimized database performance using indexing, caching, and query optimization techniques Expert in developing DDL, DML statements, Constraints rules and validation issues.
- Profound knowledge and ability to write **views, indexes, triggers, stored procedures, functions** when required.
- Having experience in performing the operation on **Joins, Set Operators, Aggregate functions** and **Ranking functions**.
- Having a good Experience in Designing the Packages with different types of tasks and transformations, securing and deploying the packages.

Work Experience

- Worked as Software developer for MES with **BharatFIH**(Foxconn Group) from 12-Nov-2018 to 31-Oct-2024.
- Worked as a Assistant professor with Arunai college of Engineering from Dec 2016 to Aug 2018.
- Worked as a Assistant professor for SKP Engineering College from May 2007 to Oct 2016.

Education & Competencies

M.E-Computer Science-S.K.P Engineering College -81% (June 2011)

B.E-Computer Science-Kamban Engineering College -68 %(Apr 2005)

Technical Skills

Programming languages: SQL, PL/SQL, T-SQL

Database management systems: Oracle, Microsoft SQL Server, MySQL

Query Tools : SQL Developer, SQL Plus, Toad for Oracle

Integration technologies: API, Web Services

Operating systems: Windows Server 2012-2019

Project details

Project 1: IT MES Implementation for Networking part manufacturer (NSN,TEJAS,TELIT)

Duration: June 2023 – July 2024

Role: Software Developer-Jr.Team Lead

Key Responsibilities:

- Database Design: Design and implement Oracle database structures to support MES applications.
- SQL Development: Write SQL scripts for data extraction, manipulation, and reporting.
- Performance Optimization: Optimize Oracle database performance for MES applications.
- Collaborated with business stakeholders to gather requirements and design MES workflows
- Managed the configuration and testing of MES system, including integration with ERP and automation systems
- Coordinated with IT teams for infrastructure setup, security, and data backups

Project 2: IT MES Implementation for Mobile manufacturer (Nokia,Xioami)

Duration: Nov 2018 – May 2023

Role: Software Developer

Key Responsibilities:

- Database Design: Design and implement Oracle database structures to support MES applications.
- SQL Development: Write SQL scripts for data extraction, manipulation, and reporting.
- Troubleshooting: Troubleshoot Oracle database issues related to MES system performance.
- Backup and Recovery: Develop backup and recovery strategies for Oracle database.
- Collaboration: Work with cross-functional teams to ensure effective use of Oracle database in MES systems.

Skills

- Advanced SQL programming
- ETL process development and maintenance
- Query optimization
- Collaboration and teamwork
- Stored procedures and triggers development
- Cost reduction strategies
- User satisfaction improvement
- Project management
