

GANESH K S

email : ganeshks260@gmail.com

Contact No : 7975967301

Hands-on experience in translating requirements to broad technical understanding, requirement gathering, design & development of applications in the automotive industry. Team player with excellent communication skills, high quality of work, driven and highly selfmotivated.

Career Experience

Over 5+ years of experience as Embedded Software Developer.

- Experience in Datalogger OBD2 device and Active Safety Devices.
- Experience in Integration of different component using Jenkins .
- Experience in creating application component using – Linux shell scripting , Python.
- Debug tools- GDB, Eclipse, Visual Studio and Wireshark.
- Agile methods - GIT, JIRA, Jenkins , Gerrit .
- Embedded Coder for Production Code Generation using MATLAB .
- Knowledge on Autosar(basics), C ,C++ and also basics of device driver development.

Project Experience

JUNE 2022 – Present

SENIOR SOFTWARE EMBEDDED ENGINEER | BOSCH GLOBAL SOFTWARE | BANGALORE

Project : Brake Systems (Active Safety) | Technologies: MATLAB , Embedded C and C++ | OS: Linux , windows |
Role: Function Developer and Integrator .

- Analyzing the **SRD** and prepare **SRS** for that.
- Developed middleware component handling personal information of the remote devices connected to the vehicle infotainment system driven by multithread applications using several C features and IPC's in Linux environment.
- Developed Model Based Software based on Customer Requirements.
- Worked With Integration team for generating Customer software having BSW and ASW.
- Developed Jenkins Job for **VCR** , **SIM** Checks and **Interface Matrix** .
- **Code implementation, testing and static analysis** for Application components Service Remainder, Gear position, Trip timer.
- Worked in ASCET tool for generating code and Model based Developments for requirement analysis.
- Highly experience in code reviewing and ensuring quality of code.
- Worked in offroad controlling function migration from Model Based to C++ .

- Hands on experience with SIL and Component Testing.
- Release bundle creation and entire system sanity check before the release

APRIL 2019 – JUNE 2022

ASSOCIATE EMBEDDED ENGINEER | DANLAW INC | BANGALORE

Project : **DATALOGGER** | Technologies: Embedded C and C++ | Hardware: LPC1768 and OBDII port | OS: Linux |
Role: Application Developer and Debugging .

About Project : Datalogger is an IoT gadget that securely collects and transmits vehicle and sensor data(through CAN protocol) to our platform via a cellular or wireless communications like wlan , Bluetooth .

Key Deliverables

- Development of Signal based wakeup of device when SMS received by the datalogger.
- Worked On Dashcam interface with Datalogger , used to upload videos and photos data to server using TCP SOCKET Programming .
- Software to perform the zip, unzip, SHA mechanism for generated core file to server.
- Worked on OTA(Over the air) development for downloading the firmware basically on difference(DELTA) file.
- Integration of each component with other component (Jenkins).
- Release bundle creation and entire system sanity check before the release.
- Python script file creation to analysis the logs files ,Wifi and Bluetooth check.
- Hands on experience in shell script file for the system bootup sequence.
- Autoit VS scripting for Automation of windows application which helps in completing the Pre-Release check and generates the results sheet (.Xlsx) .

Technical Skills

- Programming Languages : C , C++ , Python.
- Operating Systems : Linux , Windows .
- Source management : Git , Gerrit ,SCM .
- Project management : Jira, Confluence ,Agile .
- Software Automation : AutoIT , Shell Sc ripting , Python, Jenkins .
- Board BringUp [LPC176x,RaspberryPi,Ardiuno, ESP32].
- Coding IDE: Visual studio , Linux WS ,Eclipse.

Key Skills

- Design and Development of Application .
- Debugging using gdb or visual DDD and Memory tracing using Valgrind
- Understanding and implementing Kernl device driver for wifi supplicant .
- Matlab for MBD Analysis and Simulink generation.
