Skills

Programming	SQL, Python, Pandas, System Design, DSA, ETL, Data Pipeline
Visualization	Power BI, Looker, Tableau, Jupyter Notebook, Advance Excel
Database	MySQL, PostgreSQL, Snowflake, AWS, AWS Glue

Experience

May 2024 – OCT 2024

Data Analyst – Advertisement Specialist, Pattern, Pune

- Converted complex R scripts to Python, optimizing data processing for a 1TB dataset with over 20 million rows, improving team efficiency and report accessibility.
- Consolidated 10+ disparate data sources into unified Snowflake queries, enhancing dashboard accuracy by 25% and streamlining data management processes for over 600 brands, resulting in a 15% reduction in data retrieval time.
- Developed and visualized over 50 comprehensive dashboards using SQL, Power BI, Looker and Tableau, enabling data-driven decision-making and strategy formulation for stakeholders.

Sept 2023 - Apr 2024

Data Analyst - Masterfile Specialist, Pattern, Pune

- Compiled and prepared data for upload to the Ecommerce Platform using SQL, Excel, and Google Sheets, ensuring 100% accuracy and efficiency.
- Uploaded files to sales points on the internet, placing over 500 brand products on the market and increasing online product availability and visibility.
- Conducted initial checks for marketplace policies, maintaining a compliance rate of 98% and regularly reporting project progress to Junior and Senior Team Leads, improving operations.

Dec 2022 - Aug 2023

Operations Analyst, Amazon, Bangaluru

- Boosted efficiency and enhanced accuracy by 15% for the Senior Analyst team through developing automation solutions, updating data dashboards, and preparing inventory reports in Excel and Power BI.
- Conducted a thorough review of existing support operations, identifying inefficiencies that reduced discrepancies and errors by 12%; improved response times for customer inquiries, enhancing the overall satisfaction of Amazon partners.

Jun 2022 - Dec 2022

SPS Associate, Amazon, Bangaluru

- Revamped Amazon partner support operations by introducing a systematic approach to data management, which resulted in the effective cleaning of historical data sets and a 28% reduction in performance anomalies.

Projects

Business Insights 360: Brick-mortar and e-commerce [Power BI | SQL | Excel | Dax Studio]

[Dashboard](#)

- Developed a Power BI dashboard for 6 departments at AtliQ Hardware, enhancing sales trend analysis and scaling business processes by 15%.
- Streamlined data modeling from MySQL and Excel, optimizing storage by 30% and boosting performance by 10%.

Insight Generation for Telangana Government's Tourism Department [MySQL]

[GitHub Repo](#)

- Conducted Quantified Visitor Trends: Quantified Hyderabad as the district boasting the peak average visitor count, reaching an impressive 884,852.69.
- Showcased Domestic Tourism Dominance: Demonstrated Hyderabad's prominence by registering the highest domestic tourist influx, totaling a substantial 84 million visitors between 2016 and 2019.
