TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, Lambda, ECS, RDS, CloudFormation, CloudWatch)

IaC and configuration: Terraform, AWS CloudFormation, Ansible

CI/CD and Version control: Jenkins, CodePipeline, CodeDeploy, Git and GitHub

Containerization: Docker, Kubernetes

Monitoring and Logging: Prometheus, Grafana, Splunk, AWS CloudTrail

Scripting Languages: Python, Bash, YAML

Networking: VPC, NAT Gateway, Load Balancer, Route 53

PROJECTS

AWS Cloud Infrastructure Optimization

- Enhanced Performance: Deployed scalable microservices on AWS ECS, boosting application efficiency by 50%.
- Automated Workflows: Reduced manual deployment effort by 30+ hours weekly with CI/CD automation.
- Cost Optimization: Lowered operational costs by 25% via resource optimization.
- Monitoring: Integrated CloudWatch and CloudTrail, reducing system downtime by 15%
- Load Balancing: Configured Application Load Balancers to evenly distribute traffic and enhance scalability.

Serverless Architecture Implementation

- Serverless Development: Built AWS Lambda and API Gateway solutions handling 10,000+ requests/second.
- IaC Automation: Automated infrastructure provisioning with Terraform, reducing setup time by 60%.
- CI/CD Optimization: Implemented Jenkins pipelines, cutting deployment lead time by 70%.

Monitoring and Containerization

- Monitoring Enhancement: Improved system uptime by 20% using Prometheus and Grafana.
- Deployment Efficiency: Containerized applications with Docker and Kubernetes for streamlined deployments.
- Alerting: Configured Grafana alerts to reduce downtime.
- Resource Utilization: Optimized Kubernetes resource requests and limits for efficient cluster performance.

CERTIFICATION

AWS DevOps Certification

July 2024 – Nov 2024

- Completed hands-on training in AWS and DevOps tools through BTree Systems.

EXPERIENCE

Process Associate

Oct 2023 – Mar 2024

Tata Consultancy Services

- Managed end-to-end billing for state orders using Hcue software, improving billing accuracy by 20%.
- Optimized invoice documentation workflows, ensuring 100 percent compliance with organizational standards.
