Profile

Experienced PHP Developer with over 8 years of expertise in developing, theming, and managing custom modules, leveraging PHP frameworks, CMS and integrating front-end technologies to build scalable and high-performance websites with agile methods. Adept in collaborating with cross-functional teams, optimizing website performance, and ensuring best practices in coding standards and security. Committed to delivering customized, high-quality solutions that meet client requirements.

Experience

DRUPAL DEVELOPER | CREDERA | JUNE 2021 – NOVEMBER 2024

- Developed and maintained multiple high-traffic, responsive websites using Drupal 8 and 9, implementing custom modules and themes to support unique client requirements.
- Created custom Drupal modules to extend core functionality, including integrations with third-party APIs and complex content workflows.
- Optimized site performance by analyzing and resolving bottlenecks, implementing caching strategies, and conducting regular code reviews.
- Collaborated with front-end developers to ensure seamless integration of back-end functionality with responsive themes using HTML5, CSS3, JavaScript and JQuery.
- Managed and deployed updates using CI/CD tools, including Git, and Composer, to ensure consistency across environments.
- Wrote and maintained technical documentation, including module specifications, database architecture, and codebase changes.

DATA ANALYST | MEGAEXAMS | OCT 2019 – MAY 2021

- Headed a team of 8 people to deliver solutions by actively interacting with them to meet the commitments of this EduTech organization.
- Used tools such as OCR, SparkPost, MongoDB to provide statistical reports

FRONT END DEVELOPER | BANYAN TREE INFOMEDIA | OCT 2015 – JAN 2017

- Assisted in creating and maintaining PHP-based applications such as Wordpress with a strong focus on front-end integration, improving UI responsiveness and cross-browser compatibility.
- Developed a web crawler for retrieving information in Core PHP.
- Used JavaScript libraries like jQuery to enhance user interface elements, such as modals, sliders, and dropdowns.
- Optimized CSS and JavaScript for performance, reducing page load time and improving SEO rankings.
- Performed regular testing and debugging to ensure web applications met quality standards across devices and browsers.

SOFTWARE ENGINEER | ZH HEALTHCARE | JULY 2014 – MAY 2015

- Collaborated with a focused team to develop specific healthcare applications and infrastructure environments that empower users to build and deploy their e-health solutions quickly and efficiently using Zend MVC framework.
- Implemented messaging system application for communication with threads, reply, and forward functionality; including a filter for physicians, clinics, and patients
- Managed open emr to extend patient data to confirmed and authorized relatives and to form a hierarchy of said relatives by the relation with the patient.

JUNIOR SOFTWARE ENGINEER | VENTURE SOFTWARE TECHNOLOGIES | MARCH 2013 – JUNE 2014

- A key contributor to start-up company's evolution from selling one niche product to offering a full solutions suite marketed to the global financial services industry.
- Crafted a payroll management system for students including front end and backend using Core Php.
- Resolved hotel management software and built a new design for it using Yii framework.

Education

BTECH IN INFORMATION TECHNOLOGY | JUNE 2008 | UNIVERSITY OF KERALA
