Skills

Languages: Golang, Node.js, Express, HTML, CSS, JavaScript, React, Angular

Blockchain Technologies/Tools/Languages/Wallets: Ethereum, Geth, Hyperledger Fabric, Web3.js, Ether.Js, Remix, Truffle, Hardhat, Solidity, Golang, Defi, NFT, Metamask, Wallet Connect, Coinbase Wallet

Databases: MySQL, PostgreSQL, MongoDB, Redis

Developer Tools: VS Code, Postman, IntelliJ, Git, AWS, Google, Docker, Kubernetes, CI/CD tools.

Work Experience

Webcom System Pvt Ltd

Mar 2024 - Present

Sr. Blockchain Fullstack Developer

- Designed and deployed a private Ethereum network utilizing Proof of Stake (PoS) consensus.
- Implemented a custom validator to enhance network security and transaction verification, improving overall consensus mechanisms.
- Utilized tools such as Geth, Eth2 Deposit CLI, and various Ethereum clients to manage node operations and facilitate smart contract deployment.
- Ethereum, Geth, Golang, Forking, Linux, Eth2 Deposit CLI, Hardhat, Docker.

Bsetec

Apr 2023 - Sept 2023

Fullstack Developer

- Developed and maintained the MoneyCeo web application, a comprehensive money management platform, utilizing Angular 8+ for front-end development & NodeJs for backend development.
- Implemented RESTful APIs for the admin, merchant, and product management modules, allowing for easy and efficient data manipulation for e-commerce platform.
- Utilized Recurly for subscription management and payment processing.
- Conducted in-depth research on blockchain technology with a focus on layer-2 solutions.
- Blockchain, NodeJs, Javascript, Linux, Angular, RESTful APIs, Kuberntive, Lambda, S3, DynamoDB, EC2, Redis, MongoDB, Docker, MySQL, Git.

Pragmatic Techsoft Pvt Ltd

Mar 2022 - Feb 2023

Blockchain Fullstack Developer

- Developed and maintained distributed applications using R3 Corda platform.
- Implemented smart contracts and workflows in Java for secure and efficient transaction processing.
- Worked on supplychain model created on hyperledger fabric 2.0 consisting of 3 organizations. Developed and deployed smart contracts on the Hyperledger Fabric network using Golang, ensuring the integrity and security of supply chain transactions
- Implemented the Gin web framework to develop robust and efficient RESTful APIs in Golang to facilitate seamless integration with third party payment gateways.
- Utilized MySQL and MongoDB databases to efficiently manage and store data.
- Hyperledger Fabric 2.0, Corda, Golang, ReactJS, Javascript, NodeJS, Linux, RESTful API, Python, Java, Kafka, PostgreSQL, Docker, MySQL, Git,

Samta Foundation

Mar 2020 - Feb 2022

Software Developer

- Collaborated with a cross-functional team to design, develop, and maintain a blockchain-based warehouse management system.
- Utilized React to create responsive and user-friendly interfaces for monitoring inventory and order fulfillment.
- Created a reporting system for the Samta Foundation using React and Go to streamline data collection and reporting for computer training programs.
- Utilized common Goroutines and channel patterns to manage concurrent operations effectively.
- Blockchain, Ethereum, Golang, Solidity, React, Javascript, NodeJS, Linux, Docker, Kuberntive, AWS, MySQL, Oracle, Web3.js, Ether.Js, Remix, Truffle, Hardhat, Git,

Computer Trainer

- Responsible for teaching the students IIT-Bombay courses. Taught a variety of courses, from the basic to intermediate level to 2000+ students and 50+ adults.
- Trained teachers to utilize new software applications to enhance classroom performance.

Education

DIEMS Aurangabad

Jul 2011 - Aug 2014

B.E. in Computer Science and Engineering

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Cloud Computing, Advance Data Structures and Algorithms, Information Retrieval, Image Processing

Certificates

- **ATAL Academy:** Blockchain Technology and its applications
- **Intelipaat ,Banglore:**Certified Blockchain Technology Training
