WORK EXPERIENCE

Sathy Infra Tech - Erode

Role: DotNet Developer

Dates of Employment: May 2024 – Present

Developed key web applications (“Staff Portal” and “Sky”) utilizing:

Core Technologies: .NET 6, SQL, HTML, CSS, JavaScript, Oracle Toad, Ajax, jQuery

Key Achievements:

- Built and deployed efficient, scalable web applications.
- Optimized SQL stored procedures for improved database performance.
- Managed databases with Oracle Toad for seamless data handling.
- Enhanced UI/UX with Ajax and jQuery for interactivity.
- Designed clean, maintainable code for userfriendly interfaces.

Security & Data Integrity:

- Implemented strong authentication/authorization protocols.
- Ensured data accuracy through thorough validation.
- Contributions resulted in secure, reliable, and userfriendly applications that improved company operations.

PROJECTS

Staff Portal Application

Designed to streamline the onboarding process and improve administrative workflows, this portal allows new employees to register, input personal and professional information, and submit travel requests. The application eliminates manual user account creation and supports tracking of allowances for company-approved trips, enhancing user convenience. Focused on security with strong authentication and authorization protocols.

Technologies Used: .NET 6, SQL, Oracle Toad, Ajax, jQuery, HTML, CSS,Bootstrap5

Goods Master Management System

Developed to optimize inventory management and track product information, this project featured a user-friendly interface and backend logic using C# and ASP.NET MVC. The system included a normalized database schema, supported by efficient SQL queries and stored procedures for enhanced data retrieval. Implemented robust authentication mechanisms to ensure secure user interactions and data protection.

Technologies Used: C#, ASP.NET MVC, SQL, Stored Procedures

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Bannari Amman Institute of Technology, Sathyamangalam

2020–2024 , CGPA: 7.40/10 .
