

GOPI KANNAN

Cloud Operations Engineer

8220061498 • gopikannanngk@gmail.com • www.linkedin.com/in/gopi-kannan-217703217/ • Hyderabad

Summary

Proficient Cloud Engineer with almost 3 years of experience in designing and implementing automated solutions for managing and deploying applications. Skilled in implementing CI/CD pipelines, optimizing application performance monitoring and alerting systems. Proven track record in reducing downtime, deployment time and infrastructure costs and a collaborative team player.

Skills

- Microsoft Azure • AWS • Linux and Window server management • Docker • Jenkins • Kubernetes • Terraform • SonarQube • Ansible • Python
- CI/CD • GitHub • Jira • Azure Devops • SMAX • Grafana • Splunk • AppDynamics • Confluence

Experience

Diebold Nixdorf

Hyderabad

Cloud Operations Engineer

04/2022 - Present

- Build and configured cloud services for internal banking applications like IVT (Interactive video teller) and ACDE (All Connect Data Engine).
- Hands-on experience in **Azure subscriptions, Microsoft Entra ID, Virtual machines, Azure Storage account, Role-based access control (RBAC) management, IaaS and PaaS solutions.**
- Hands on experience with **EC2, S3, RDS, VPC, ELB, EBS, Auto scaling and Routing.**
- Proficient with **Azure Sentinel** focusing primarily on **SIEM** (security information and event manager) for monitoring and **SOAR** (security orchestration, automation, and response) for automating incident response actions.
- **Monitoring resource** utilization and optimization for cost, ensuring efficient usage of Azure services.
- Building, configuring, patching, upgrading, and troubleshooting **physical and virtual servers.**
- Installation and Configuration of container environment including **Docker** trusted registry for managing different **Docker images** and deployment of applications inside the software containers.
- Experienced in **Jenkins** by installing, configuring and maintaining for purpose of continuous integration (CI) and for end-to-end automation for all build and deployments and created **Jenkins CI pipelines.**
- Deployed resources in **Azure Kubernetes Cluster** and hands on experience on cluster configurations on AKS, managing and troubleshooting of pods, scaling.
- Created and configured **load balancers and auto scaling** groups to distribute the network traffic.
- Experienced in **Terraform** code for infrastructure provisioning in Azure.
- Experienced in scripting using **Python.**
- Daily health checks, meticulous documentation, and monitoring of infrastructure and applications in the production environment, including configuring alerts using monitoring tools such as **Azure Monitor, CloudWatch, Splunk, CheckMk, Grafana** and analyzing and resolving reported system or user alerts.
- Reduced server downtime by **proactively monitoring** cloud resources and addressing potential issues before they escalated.
- Assisted in troubleshooting and resolving infrastructure-related issues, **minimizing downtime** and improving **system reliability.**
- Collaborated with application teams to implement and **monitor backup and disaster recovery** strategies.
- In-depth understanding of **Cloud security principles** and experience in implementing security controls and best practices in Azure environments
- Experienced in issue tracking tool like **JIRA.**

Certifications

Azure Administrator Associate - Microsoft Certification ID: 993588131

Azure Fundamentals - Microsoft Certification ID: 992902986

Recognition

Project Champion Award in Diebold Nixdorf for Exceptional Contribution for

Annual Year-2023

Education

RAJALAKSHMI ENGINEERING COLLEGE - ANNA UNIVERSITY
BACHELOR OF ENGINEERING

Chennai
2014 -2018
