Summary

Motivated and detail-oriented Electronics and Communication Engineering graduate with strong analytical and technical skills, currently working as an Associate Software Engineer at Tech Mahindra. Proficient in Power BI, MySQL, DAX functions, and basic Tableau, with experience in data visualization, data analysis, and creating interactive dashboards. Skilled in programming languages such as Java and Python. Eager to leverage my expertise to excel in Business Analyst, Data Analyst, or Power BI Developer roles.

Experience

Associate Software Engineer

Tech Mahindra | Hyderabad, Telangana

Dec 2023 – Present

- Developed and maintained high-quality code using Java, Spring Boot, and MySQL.
- Gained experience in agile development, participating in sprint planning and daily stand-ups.
- Responsible for incident monitoring and dispatching in an SAP SD (Sales and Distribution) project.
- Managed and tracked incidents to ensure timely resolution by coordinating with the relevant teams.
- Collaborated with cross-functional teams to streamline incident management workflows.

Skills

- **Data Analysis Tools:** Power BI, MySQL, Basic Tableau
- **Programming:** Java, Python (Basics)
- **Data Visualization:** Interactive dashboards, data modelling, data cleaning, reporting
- **Database Management:** SQL queries, database design, and optimization
- **Excel Expertise:** Pivot tables, data validation, advanced formulas
- **DAX Functions:** Calculated columns and measures for data insights
- **Analytical Skills:** Data interpretation, problem-solving, decision-making
- **Soft Skills:** Strong communication, teamwork, attention to detail

Education

B-Tech in Electronics and Communication Engineering

KU College of Engineering and Technology, Warangal, Telangana

Graduation: May 2023 | CGPA: 8.01/10

Projects

Automatic Human Body Detection in Water Canal using IoT (B-Tech Project)

- Developed an IoT-based system to detect human bodies in water canals.
- Integrated sensors, servomotors, gates, and buzzers for real-time monitoring.
- Automated alerts and notifications to authorities upon detection.

Interactive Sales Dashboard using Power BI

- Designed a comprehensive dashboard to track sales performance and trends.
- Utilized DAX functions to create calculated measures for revenue insights.
- Enhanced decision-making by visualizing regional and product-specific data.

Fee Management System

- Developed a Full Stack Fee Management System.
- Utilized HTML, CSS, JavaScript, and Bootstrap for the front end.
- Implemented back-end functionality using Java, JSP Servlets, and MySQL.
- Integrated Spring and Maven for efficient development and deployment.
- Deployed the application on Tomcat Server.

Certifications

Certified Full Stack Developer from Social Prachar Training Institute

- Gained comprehensive knowledge in front-end and back-end development, covering technologies like HTML, CSS, JavaScript, Java, MySQL, and Spring.
- Developed practical skills by building and deploying full-stack applications, following best practices in coding and architecture.

Agile Fundamentals: Scrum & Kanban Certification from Udemy

- Learned the principles and practices of Agile methodologies, including Scrum and Kanban, focusing on iterative development and team collaboration.
- Acquired the ability to effectively participate in and manage Agile projects, with an emphasis on continuous improvement and adaptability.

MySQL Certification from Udemy

- Gained a strong foundation in MySQL, focusing on database design, query writing, and data management.
- Learned to create, optimize, and maintain relational databases to support various applications.
- Acquired practical experience with SQL queries, including data manipulation, retrieval, and performance optimization techniques.

Power BI Certification from Udemy

- Learned interactive dashboard creation, data modelling, and report generation.

Languages

English, Hindi, Telugu

Interests and Hobbies

- Data analytics, business intelligence, and exploring emerging technologies
- Reading books, listening to music
