EDUCATION

Vasireddy Venkatadri Institute of Technology Guntur, Andhra Pradesh **August 2019-May 2023**
Bachelor of Technology in Electrical and Electronics Engineering GPA 7.03
Relevant Courses: Data Structures and Algorithms, Artificial Intelligence, Systems Programming, Software Methodology, Database Management, Internet Technology, Computer Architecture

WORK EXPERIENCE

- Human Resources Recruiter at DIGIQUAD SOLUTIONS** **March 2024-April 2024**
- I leverage my HR skills to support tasks like screening job applicants and scheduling interviews.
 - Assisting with onboarding new employees, updating employee records, and even planning and coordinating employee events and salary negotiations.
- Human Resources Intern at BIRD CODE COMMUNITY** **December 2023-April 2024**
- I leverage my HR skills to support tasks like screening job applicants and scheduling interviews.
 - Assisting with onboarding new employees, updating employee records, and even planning and coordinating employee events.
- Human Resources Intern at Youth India Foundation** **November 2023-February 2024**
- Contributed to a positive work environment by planning and coordinating engaging employee events.
 - Provided administrative support to the HR team by assisting with performance management processes and benefits administration (answering questions, resolving basic issues).
- Human Resources Intern at Sinzo** **November 2022-February 2023**
- Facilitated a smooth onboarding experience for new hires by assisting with paperwork, conducting orientation sessions, and ensuring they have the resources needed to succeed.
 - Maintained accurate employee data within Sinzo's HR systems by meticulously updating records and ensuring compliance.

PROJECTS

- Statcom Based On PI Controller And PLL Using Matlab** **December 2022-April 2023**
- Designed and simulated a STATCOM (Static Synchronous Compensator) using a PI controller and PLL (Phase Locked Loop) in MATLAB. This project demonstrates proficiency in power electronics modeling, control system design (PI controller), and signal processing (PLL) using MATLAB.
 - Utilized MATLAB to design and simulate a STATCOM with a PI controller and PLL for power system control. This project demonstrates expertise in MATLAB for modeling, simulation, and analysis of power electronics systems.
- Laser Light Alarm** **December 2021-June 2022**
- Designed and implemented a Laser Light Alarm system utilizing a laser diode and light-dependent resistor (LDR) to detect unauthorized entry. The system triggers an audible or visual alarm upon intrusion, enhancing perimeter security.
 - Developed a Laser Light Alarm system using electronic components such as a laser diode, LDR, and microcontroller. The project involved circuit design, programming, and system integration, demonstrating proficiency in electronics and embedded systems.
- Automated Floor Cleaning Robot** **December 2020-April 2021**
- Designed and developed an autonomous floor cleaning robot utilizing sensors for obstacle detection, navigation algorithms for efficient path planning, and motor control for precise movement.
 - Identified the need for a time-saving cleaning solution and developed an automated floor cleaning robot capable of navigating complex environments, overcoming obstacles, and delivering a thorough clean.

LEADERSHIP & EXTRACURRICULAR

- Selected as a campus ambassador to the skolar.
- General secretary for the IEI STUDENT'S CHAPTER in our college.
- Worked as a discipline member in the student activity council in our college.
- Member of the National service scheme.
- Organized so many big events like EXOUSIA-2K22, 2K21 and our college fest.

- Certificate of excellence from IIT Kanpur for campus ambassador.
- Awarded as a INTERN OF THE WEEK in the 4th week of November month.

SKILLS

- **Languages:** Python ,C, HTML, CSS, JavaScript
- **Tools:** Excel, PowerPoint
- **Operating Systems** Windows10, Windows7
- **Soft Skills:** Excellent Communication, Teamwork, Adaptability, Problem-Solving, Organizational Skills, Negotiation Skills
- **Technical Skills** Recruitment Tools, Payroll Systems, Compensation and Benefits Analysis

CERTIFICATES

C for everyone by Coursera

- Strengthened foundational programming skills in C through Coursera's "C for Everyone" course. Learned core concepts like variables, data types, operators, control flow, functions, and memory management.
- Established a solid foundation in C programming through Coursera's "C for Everyone" course. Gained practical experience in writing, compiling, and debugging C code.

Python Basics by Coursera

- Gained foundational knowledge of Python programming through Coursera's "Python Basics" course. Learned core concepts like variables, data structures (lists, strings), operators, control flow (loops, conditionals), and basic functions.
- Developed practical Python programming skills through Coursera's "Python Basics" course. Gained experience in writing, running, and debugging Python code.

Aws Cloud Foundations.

- Strengthened knowledge of cloud computing fundamentals and AWS services like EC2, S3, and Lambda through the AWS Cloud Foundations course.
- Proactively completed the AWS Cloud Foundations course to gain a solid understanding of cloud computing and AWS services. Demonstrates initiative and a desire to learn new technologies.

Introduction To Cyber Security By AICTE Platform

- Leveraged cyber security knowledge and skills to identify and address network vulnerabilities, implement security controls, monitor and analyze security logs.
- Experienced in various cyber security tools and technologies, such as firewalls, intrusion detection systems, security information and event management (SIEM) systems.

The Inventory Management ,IT For Business Success, Success Mindset ,Data Science And Analytics, Hiring Staff, Effective Leadership Courses From HP LIFE.

- Improved understanding of optimizing stock levels, reducing waste, and streamlining fulfillment processes.
- Gained practical skills and insights for leveraging technology to enhance business efficiency and achieve strategic goals.
- Enhanced understanding of data analysis techniques to extract valuable insights for informed decision-making.
- Strengthened leadership skills to motivate, inspire, and guide teams towards achieving shared objectives.

Tareeqa global solutions related to HR field

- At Tareeqa Global Solutions, I played a key role in the HR department, handling tasks like screening resumes, conducting interviews, onboarding new hires, maintaining employee records, and providing administrative support.
 - At Tareeqa Global Solutions, I specialized in talent acquisition, employee relations, where I developed a successful onboarding program that increased new hire retention.
-
