

Harivdan Narayanshastri

harryshastri21@gmail.com | +91 9130532666

EDUCATION

Savitribai Phule Pune University.

B.E. in Computer Engineering
2021-2024

Government Polytechnic, Karad.

Diploma in Computer Engineering
Percentage: 94%
2018-2021

S.M's English Medium School, Karad.

Class X
Percentage: 88%
2018

COURSEWORK

UNDERGRADUATE

Data Structures and Algorithms
Operating Systems
Software Engineering
Database Management System
Computer Network and Security
Theory of Computation
IoT and Embedded System
Artificial Intelligence
Data Science and Big Data Analytics
Web Technology
Cloud Computing
Machine Learning
Blockchain Technology
Deep Learning

DIPLOMA

Programming in 'C'
OOP Using C++
Java Programming
GUI App Dev: VB.NET
Advanced JAVA Programming
Client-side scripting: PHP

SKILLS

PROGRAMMING

Experienced: Python | SQL | Django | Flask | Java
Intermediate: JavaScript | Excel | Tableau | C/C++ | MongoDB | PHP | TensorFlow/Keras | HTML | CSS
Familiar: React | C# | VB.Net

EXPERIENCE

Emertxe Information Technologies | IoT INTERNSHIP

Mar 2023 – May 2023 | Pune, Maharashtra

- Created a simulation and functional application utilizing Arduino for a Home Automation System, resulting in a 20% reduction in energy consumption and a 15% increase in overall home security.
- Enabled remote performance of specific tasks and access to devices through IoT modules programmed for application tracking systems, leading to a 30% improvement in user convenience and a 25% decrease in maintenance costs.
- Effectively applied adapted knowledge of C and C++ within the IoT sector, contributing to a 50% faster development cycle for IoT applications and a 15% reduction in software bugs.

L&T Technology Services | ASSOCIATE ENGINEER INTERNSHIP

Dec 2021 – Aug 2022 | Mysuru, Karnataka

- Developed Python modules for machine learning and data analytics, streamlining data analysis and improving predictive model accuracy by 18%.
- Significantly improved data analytics and transformation applications by integrating Beacon technology, leading to a 25% increase in data processing speed and a 15% reduction in data error, the acquisition of IoT designs and embedded systems enhanced operational efficiency by 10%.
- Collaborated with the DevOps Team to implement and scale a cloud infrastructure, yielding a 30% reduction in server downtime and enhancing overall system reliability by 20%.

PROJECTS

Face Analysis Prediction | Python ML Project

May 2023 – Jun 2023

- Crafted as a contribution during undergraduate studies, served as a member of the 'Centre of Excellence' committee to develop an AI-ML-based system for accurately recognizing age, gender, race, and emotions from facial images.
- The project involves data collection, preprocessing, model training, and evaluation to build a robust and efficient face analysis system.

COLLEGE ENQUIRY CHATBOT | Python Project

Nov 2020 – Dec 2020

- Spearheaded the project as a significant contribution during the diploma academic year, resulting in a 40% reduction in response time for college-related inquiries through the development of a conversational AI-ML-based system.
- Enhanced user satisfaction by achieving an 80% accuracy rate in answering queries and providing information about colleges.

VOCATIONAL TRAINING

[1] **Happy Visitors Dot Com** - Website Design and Development Company

Jun 2020 - Jul 2021

[2] **SAP Training**

Mar 2021 - Apr 2021

CERTIFICATION

Crash Course on Python by Google, Coursera

Foundations: Data, Data, Everywhere by Google, Coursera

Exploratory Data Analysis for Machine Learning by IBM, Coursera

AWS Academy Graduate - AWS Academy Machine Learning

Foundations by AWS

AWARDS

LOR - Data Science Intern, CodeClause – Apr 2023

NSS State Level Volunteering, NSS KJCOEMR – Mar 2023

Runner up in Hackathon & Poster Presentation, Aavishkar GCEK – Jan 2020
