

HARSH SRIVASTAV

Data Engineer | Azure | harshshrivastava481@gmail.com | 7697084609 | [Linkedin](#)

Skills

Languages: Python, JavaScript, SQL, PLSQL, Java, HTML

Technologies & Tools: Azure, GCP, Dataproc, Elasticsearch, Spark, Hive, Hadoop, Docker, Kafka, Git, Jenkins, Snowflake, ETL, CI/CD, Databricks, BigQuery, HiveQL, MongoDB, Confluence, JIRA

Work Experience

MetricStream, Bangalore

June 2022 - Present

Member of Technical Staff

- **Led development efforts** for a **Third-Party Risk Management** application, focusing on optimizing data flows and enhancing system efficiency. **Specialized in Python, SQL, PL/SQL, Spark, and Hive** to manage large-scale databases and ensure seamless data processing across the platform.
- **Transitioned PL/SQL hooks to Groovy**, resulting in a **25% increase in efficiency** and a **40% reduction in processing time**, directly improving data pipeline performance.
- **Contributed to 3 major release cycles**, ensuring data integrity and smooth deployment of system updates. Additionally served as **Scrum Master**, leading agile development processes that enhanced cross-functional collaboration on data management projects.
- Served as Core Support Engineer for Third-Party Management (TPM), addressing escalations related to data discrepancies, system performance, and customer-specific data requirements. Leveraged Java, Groovy, PL/SQL, and JavaScript to resolve issues efficiently, resulting in improved data accuracy and reduced customer churn.
- Possess **extensive experience in cross-functional collaboration**, integrating **data engineering practices** within GRC-based MetricStream Software. Ensured smooth data flow between departments, aiding in cohesive project delivery and system scalability.
- **Assisted in developing technology roadmaps**, with a focus on **enhancing data architectures** and advancing the **API estate**. Collaborated with internal and external solution providers to streamline data integration and improve system-wide performance.

MetricStream, Bangalore

June 2021 - June 2022

Intern

- As a full-time intern at MetricStream, I collaborated with stakeholders, developers, and production teams to identify business needs and implement data-driven solutions, ensuring the security and integrity of data through best practices. I also designed and implemented stored procedures, views, and other database objects to optimize application performance and support efficient data processing.

Education

Chikara University, Solan

Aug 2018 - Jun 2022

B.E. in Computer Science and Engineering

CGPA: 9.4/10

Relevant Coursework: Object Oriented Programming, Databases, Discrete Math's, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval, Image Processing

Awards and Certificates

- Awarded with Star Performer Award at MetricStream.
- Back End | Full Stack Web Development in Node.js
<https://students.codingninjas.com/verify/9392d448ec92e551>
- Front End | Full Stack Web Development in Node.js
