EDUCATION

2021	Bachelor of Technology (B.Tech.) specializing in Computer Science from SRM Institute of Science and Technology with 77%
2017	Higher Secondary School (12th) from Sunbeam School with 83%
2015	Secondary Education (10th) from Sunbeam School with 9.0 CGPA

PROFILE SUMMARY

- **Certified** data engineer with **3 years of management consulting experience** in the Pharma industry.
- Proficient in designing and implementing scalable data architectures using **AWS technologies** and other tools such as **S3, Athena, EMR, Glue, Hadoop, Hive, Airflow, and ServiceNow**.
- Skilled in project management tools such as **JIRA and Agile methodologies** to manage complex data projects.
- Developed and implemented ETL data pipelines using **Airflow, PySpark, Python, and SQL** to deliver high-quality data products and valuable insights to clients.
- Proficient in **data modeling, data warehousing**, and data lake design patterns.
- Effective at **managing projects** and delivering them within the defined timeline and budget while ensuring data quality and security.
- Possess excellent **communication skills** and skilled at building strong **relationships with clients and team members** from diverse backgrounds.
- Committed to **continuous learning** and seeking new opportunities to enhance skills and knowledge to deliver exceptional results for clients.
- Proven ability to **lead and mentor cross-functional teams**, ensuring that everyone is aligned on project goals and delivering high-quality results.
- Successfully led internal and client teams in operation and development efforts, **providing knowledge transfer and mentorship** to prepare client teams for project success.

SKILLS

AWS/Cloud Services: Glue, EMR, Lambda, S3, Crawlers, Sagemaker, Athena

Programming Languages: PySpark, Python, SQL

Big Data Technologies: Spark, Hadoop, Hive, Data Modeling, Data Warehousing, and Data Lake Design Patterns

Project Management Tools: Jira, Agile methodologies, ServiceNow, Excel

Soft Skills: Excellent communication skills, Leadership, Team management, Problem-solving and analytical skills, Continuous learning and self-motivation.

WORK EXPERIENCE

ZS Associates

Growth Path:

Jul'24 – Present as Business Technology Solutions Associate Consultant

Nov'21 – Jun'24 as Business Technology Solutions Associate

- **Migrated** a pharmaceutical data-hub project to the cloud using **AWS services** such as **S3, Athena, EMR, Hadoop, and Glue**.
- Provided **leadership and mentorship** to both internal and client teams, including knowledge transfer and training sessions to prepare them for successful project delivery.
- Utilized project management tools such as **JIRA and Agile methodologies** to manage the project and deliver it within the defined **timeline and budget**.
- Developed and maintained **strong relationships with clients and team members** from diverse backgrounds, demonstrating excellent communication skills.
- Demonstrated expertise in **data modeling, data warehousing, and data lake** design patterns to optimize the data ecosystem for better performance.

Shrinath Ji Foundation

NGO Intern

Apr'21 – Oct'21

- Contributed to COVID-19 relief efforts by **volunteering** as an intern for the NGO.
- Assisted in **organizing** and distributing essential supplies to those in need.
- **Collaborated** with team members to ensure efficient execution of relief efforts.
