Projects

Manufacturing Analysis

- Leveraged SQL, Tableau, and Excel to optimize ETL workflows, transforming raw production data into actionable insights.
- Evaluated daily output, wastage, and performance metrics to identify inefficiencies, driving process improvements and defect reduction.
- Designed dynamic Tableau dashboards to track operations, employee productivity, and machine utilization, enhancing production planning and resource management.

Banking Analysis

- Optimized ETL processes using SQL, Tableau, Power BI, and Excel, transforming raw data from source systems into a centralized data warehouse for analysis.
- Examined customer demographics, loan amounts, interest rates, and loan terms to uncover trends and segment customers for targeted, data-driven strategies.
- Designed interactive dashboards in Power BI and Tableau to track loan performance and default rates, improving risk assessment and enabling precision marketing efforts.

Skills

Microsoft Excel

(Power pivots, Power query)

Microsoft PowerBI

MySQL

Tableau

Agile — Beginner

Python — Beginner
