SOFTWARE ENGINEER

To secure a challenging and rewarding position within an organization where I can utilize my skills and experience to contribute positively to the team's goals and objectives. Committed to continuous learning and professional development to stay abreast of industry trends and advancements.

EXPERIENCE SUMMARY

- Overall 2 years of IT experience as RPA Developer.
- Experienced in building RPA (Robotics Process Automation) solutions using **UiPath, Automation Anywhere, Power Automate Desktop**.
- Implemented end to end automation solutions as per requirements which involves Analysis, designing, development, testing, deployment of automation.
- Full Stack Developer with a proven track record of designing, developing, and maintaining scalable web applications. Proficient in frontend and backend development technologies.

WORK EXPERIENCE

IGT Solutions (May2022- March24)

Worked as a RPA Developer in a Gurgaon Based Company to start my corporate journey, here I have been offered responsibilities to worked on development of bots, created data to test the bots.

- **Projects**

SkyTeam PNR Servicing-

The process involves reading PDF attachment received from client via email and make a list of PNRs to start retrieving the PNR details. Once the list of PNR created, we will start retrieving the data from PNRs and store them into Excel sheet and then identifying the PNR that are not in SYNC with OA PNRs and flag the mismatched PNR element information into the report file.

- In this project I was involved in developing robots using UiPath tool and involved in maintaining and monitoring the bot during the test of bot.
- Analyzed the suitable process to create the bot and used RE Framework to develop the unattended robotic bot using UiPath.
- Used data scrapping method for extracting structured data from browser and other documents and converting it into a CSV file.
- Used excel automation for excel data entry, appending and comparing columns.
- Handled exceptions using TRY-CATCH method.
- Handled execution of project using UiPath robot.

- Deployed the process in UiPath Orchestrator and scheduled their execution.
- Maintaining and monitoring the bot for the testing.
- **POC**

RPA Challenge Portal-

The process involves Download excel file and read the excel Data one by one and fill to the RPA challenge portal, after that submit the details and find out the Accuracy.

- In this POC I Developed robots using Power Automate Desktop tool.
- Using excel automation read the excel data and fill in the form one by one.
- Handled exceptions using TRY-CATCH method

ACHEIVMENTS

- Successfully completed all the Automation anywhere bot game season-4 challenges.

SKILL SET

- **Programming Languages** -C, Python.
- **RPA Tools** - UiPath, Automation Anywhere, Power Automate Desktop.
- **Frontend Development**- HTML5, CSS, JavaScript, React JS.
- **Backend Development**- NodeJS, ExpressJS
- **Database Management**- MySQL, MongoDB.

Training and Certifications

- RPA Developer Foundation.
- RPA Developer Advance.
- Automation Anywhere Certified Advance RPA Professional 2022.
- Certification of completion- Power Automate Desktop.
- Certification of completion- Full Stack Developer(MERN STACK)- by Apna college

EDUCATIONAL DETAILS

- Completed B. Tech in Computer Science from Shri Ram Murti Smarak College of Engineering and Technology Bareilly with 7.0 CGPA in July 2022.
- 10+2 from U.P. Board with 82.8% in 2017.
- 10th from U.P. Board with 82.5% in 2015.

DECLARATION

I do hereby declare that the above information is true to the best of my knowledge. Finally, I request the concerned authorities to provide me a chance, so that I can prove the best of myself. I shall ever be thankful and grateful to you.
