## PROJECTS

### Password Generator and Manager App

*Developed a robust random and secure password generator within a personal project, emphasizing data security.*

- Implemented customizable options allowing users to include specific characters in generated passwords.
- Created a database functionality to save and manage generated passwords.

Link : [Github](#)

### Ayurvedic Plants Species Detection System using Image Processing

*This research includes a review of multiple **image processing** methods for using **machine learning** to identify multiple plants in the form of an image using their leaf feature.*

- Uses **SSD MobileNet model** architecture for processing the images.
- Uses **TensorFlow Object Detection API** to train a new model for object detection

## EXPERIENCE

### Flutter Developer Intern at rthetapi | Remote - based Internship

**Mumbai, Maharashtra | Jul 2024 - present**

- Converted figma designs to flutter code, ensuring UI/UX consistency.
- Implemented state management using Provider
- Worked on API integration with backend developers for seamless data transactions.
- Contributed to live project deployments, improving user satisfaction.

### Kasetsart University, Thailand | Virtual Research Internship

**JAN 23 - MAY 23**

- Conducted in-depth research on a wide range of deep learning models, evaluating their performance to identify the best model for our project.
- Focused on optimizing model accuracy while minimizing loss, ensuring the most effective solution for the given problem.
- Gained comprehensive knowledge in machine learning algorithms, deep neural network architectures, and relevant libraries.

## SKILLS

**Programming Languages :** C, Java, Dart, Python

### Frameworks and Libraries:

Flutter, Android with Java, Tensorflow, SSD MobileNet

**Web Technologies:** HTML, CSS, Javascript

**Tools and Platforms:** Git, Github, Firebase

**Databases:** MySQL, MongoDB

**Concepts:** Data Structures, Algorithms, Machine Learning, DBMS, Operating Systems, Computer Networks

## EDUCATION

### Vishwakarma University, Pune, Maharashtra 2019 - 23

Computer Engineering|

CGPA: **8.04**

### SGI Academy Kolhapur,

**2018 - 2019**

**forwarded to TMC Ichalkaranji**

*State Board (Class XII),*

*Aggregate: **69%***

### Sinhgad Public School, Solapur

**2016 - 2017**

*CBSE (Class X), CGPA: **9.6***

## ACHIEVEMENTS / AWARDS

- Received IBM Badge in Cyber Security and Forensics
- Certified Alpha Course in Java + DSA
- Solved 250+ problems on LeetCode.
