SUMMARY

I am an accomplished ASP.NET Full Stack Developer with a strong proficiency in Angular front-end development and SQL Server databases. My extensive experience in ASP.NET-based web development, along with my exceptional skills in .NET Framework, C#, Web Services, RESTful APIs, Angular, HTML, and CSS, has enabled me to deliver high-quality software solutions. With my passion for staying up-to-date with the latest technologies and my exceptional problem-solving skills, I am confident in my ability to make a valuable contribution to any project or team.

SKILLS

Languages: C#, Python, HTML, CSS, Typescript.

Frameworks: ASP.NET Core (C#), ASP.NET (C#), Angular 14.

Cloud: Azure.

Databases: Microsoft SQL Server.

Version Controls: Git, Bitbucket.

EXPERIENCE

Digital Developer

Enviri Corporation

July 2023 - Present, Hyderabad

- Proficient in full-stack development with expertise in .NET, Angular, and Microsoft SQL Server.
- Spearheaded the development of two significant digital products: "Employee HR Portal" and "Digital AFI Tracker," successfully deploying them to the production environment.
- Achieved a remarkable 48% increase in customer satisfaction and an outstanding 90% adoption rate for the products.
- Contributed to the ongoing support and maintenance of all applications developed by our team.

Software Engineer

Micron Technology

July 2021 - July 2023, Hyderabad

- Designed and developed end-to-end web applications using C#, ASP.NET Core, and Angular, resulting in the creation of Risk Prediction and Group Flattening applications that improved efficiency by 20%.
- Created RESTful APIs using C#, ASP.NET Core, and SQL Server, resulting in the creation of the Automated EndPoint Health Remediation and MTVault API applications, which streamlined processes and reduced time-to-resolution by 30%.
- Automated Azure Certificates Expiration and Contacts Updates reminders, and updated SPN account passwords on multiple servers using Powershell, which reduced manual efforts by 40%.
- Developed Windows Console Applications using C# for various purposes, including DB Collectors and Connectors and ADFS Monitoring and Validation Tool, increasing productivity by 25%.
- Managed Azure AD as an Azure Application Administrator.

Developer Intern

Hebeon Technologies

July 2020 - October 2020, Remote

- Implemented integration of pre-built APIs to bridge the communication between the front-end framework and RASA, resulting in a 30% reduction in development time while involved in Chatbot development utilizing the RASA framework.
- Created course content on Machine Learning models and gained expertise in Machine Learning and Deep Learning Models.
- Collaborated cross-functionally to ensure the timely delivery of quality software solutions, demonstrating exceptional teamwork and communication skills. Developed models with a 95% accuracy rate, which increased customer engagement by 22%.

EDUCATION

Bachelors of Technology - Computer Science and Engineering

SASTRA Deemed To Be University • Thanjavur • 2021 • 8.65 GPA

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate

Microsoft • 2024
