PROFILE

I am a dedicated and proficient .NET Developer with 2 years of experience in developing robust web applications. My expertise includes designing and implementing Web APIs and working with SQL databases. I am committed to delivering high-quality solutions and continuously improving my technical skills to contribute effectively to team projects.

Experience

 Aspire Systems	Koch, India
Junior Software Engineer	08/2022 - Present
• Promoted to Junior Software Engineer in recognition of exceptional performance. • Contributed to the development of the Grexel project by designing and implementing key web APIs and stored procedures to ensure efficient data handling and seamless integration between systems. • Designed and implemented efficient stored procedures to optimize data retrieval and processing, significantly improving database performance and reducing query execution time. • Developed and integrated scalable web APIs, ensuring seamless communication between front-end and back-end systems while maintaining high performance under load. • Identified and resolved critical bugs in stored procedures which ensuring data integrity. • Coordinated with back-end developers to integrate APIs and optimize data flow, enabling faster and more efficient development cycles. • Regularly communicated with clients to provide updates on project progress, deliverables, and key milestones, ensuring transparency and alignment with client expectations.	

Education

Christ College Of Engineering, Irinjalakuda	
B. Tech Electrical and Electronics Engineering	07/2018 - 08/2022

Skills

ASP .NET MVC	Experienced	SQL	Experienced
