

JOHN JOSHUA OBED PATHRIPALA

Hyderabad, India · johnobed3108@gmail.com · +919154644246 · [LinkedIn](#) · [GitHub](#)

WORK EXPERIENCE

WTA Studios Pvt Ltd
Data Science Expert

Hyderabad, India
March 2024 - September 2024

- Developed 3 Full-Stack applications with AI functionalities and real-time visualizations.
- Designed user-friendly interfaces, increasing user engagement by 15%.
- Achieved seamless integration for Deployment, reducing deployment duration by 5%
- Collaborated with External teams, Propelling the sprint to completion by 10%.
- Skills: Python, Javascript, React, Nextjs, Git, BitBucket, MongoDB

Sanctus IT Solutions
Data Analyst

Hyderabad, India
August 2023 - March 2024

- Developed automated email workflows with Google Apps Script, boosting marketing efficiency by 10% and campaign engagement by 25%.
- Analyzed emails and inquiries using NLP, extracted sentiments, understanding customer behavior by 15%
- Visualized key Insights , and Improved client decision making by 30%.
- Created a Google Sheets and Slack API integration for real-time updates, enhancing collaboration between 3 teams and internal decision-making by 20%.
- Skills: Python, NLP, MS Excel, Google Apps Script, Slack, Pandas, Numpy, Matplotlib, Seaborn

National Centre For Polar and Ocean Research(NCPOR)
Data Science Intern

Pune, India
January 2023 - June 2023

- Utilized advanced deep learning to analyze polar and oceanographic data, boosting model accuracy by 20%.
- Forecasted climatic changes in polar regions using time series forecasting like LSTM,ARIMA. achieving 90% model accuracy.
- Extracted insights from Polar data, Understanding climatic patterns and identifying key temperature trends over the next 10 years.
- Collaborated effectively with team members, streamlining workflows and accelerating project completion by 20%.
- Skills: Python, Machine Learning, Neural Networks - RNN, CNN, ANN, Time Series Forecasting - LSTM, ARIMA.

EDUCATION

Christ (Deemed to be University)

Master's Degree: Data Science, GPA: 8.0

Relevant Coursework: Python, SQL, NLP, Research, Time Series Analysis

Pune, India
2021-2023

Loyola Academy Degree and PG College

Bachelor's Degree: Computer Data Science, GPA: 8.24

Relevant Coursework: Python, Java, SQL, Machine Learning

Hyderabad, India
2018-2021

ACADEMIC PROJECTS AND PUBLICATIONS

Implementation of Supervised Pre-Training Methods for Univariate Time Series Forecasting - Research Thesis

- Python, Time Series Analysis, Machine Learning, Neural Networks.
- Conducted extensive research on Stock Market data of Nifty 50 Companies , achieving 90% accuracy and live data tracking.
- **Paper Published at the 2nd INOCON 2023, under IEEE Bangalore and Microsoft Publications**

Forest Fire Prediction Using CNN

- Python, CNN, Selenium, openCV, Deep Learning.
- Used OpenCV for image recognition and Selenium for message alerts, achieving 86% accuracy.
- The primary goal was to predict and prevent forest fires through early detection and timely alerts with 20% faster detection time.

SKILLS AND INTERESTS

Technical Skills: Python, R, SQL, AI, Machine Learning, Neural Networks, NLP, Tensorflow, Keras, NumPy, Pandas, Javascript, Statistics, React.js,MS Excel, Power BI, Data Analytics

Other Skills: Jira, Version Control(Git), BitBucket, Slack, Creative Thinking, Risk Management, Agile, Teamwork.

CERTIFICATIONS

- AWS Academy Cloud Foundations
- Machine learning and NLP with Python
- Gen AI - RAG Application Development with LangChain
- Full Stack Development Bootcamp by Udemy
- Data Science Foundations by IBM
